TURKEY TO HAVE BUT MINIATURE ARMY

League Council To Hold Next Meeting In Paris March 12

Organization of Commission to Visit Russia Will Be Taken Up; Swiss People Will Vote on League Membership in April or May.

Paris, March 3.—(French Wireless).—The League of Nations Council will hold its next meeting in Paris March 12. Organization of the commission which is to investigate conditions in Russia will be taken up, it is understood.

Berne, March 2.—Via London, March 3.—Adherence to the League of Nations by Switzerland was approved by the Swiss National Council to-day by a vote of 114 to 55. This decision does not bind this country to enter the League, but recommends a plebiscite to be held during April or May, in which the people will voice their desires.

O'CONNOR MADE NO STATEMENT TO-DAY

Commerce Board Member Silent About Discussion in Parliament

Ottawa, March 3.—(Canadian Press).—"Nothing to say," remarked Commissioner W. F. O'Connor, acting chairman of the Board of Commerce, this morning when he was asked to make a statement on the discussion in the Commons and Senate yesterday on the Board of Commerce.

Mr. O'Connor said he had read the reports of the discussions but still he had nothing to say about them. Following repeated references in the House yesterday to the Board of Commerce and the resignation of its chairman, Sir George Foster, tabled last night the correspondence between himself and Judge Robson, in which the judge stated that he could not remain on the Board while he was out of sympathy with the Combines and Fair Prices Act, which he was trying to administer.

A QUESTION FOR THE LEGISLATURES

Right to Enact Legislation on Eight-hour Day Is Theirs

Ottawa, March 3.—(Canadian Press).—The right to enact legislation on the eight-hour day is in the hands of the Provincial Governments. It is announced by the Minister of Labor in connection with the application of one of the provinces for a ruling on the subject. The position is that the Federal Government has jurisdiction under its treaty-making rights to enact such legislation as may be necessary to give effect to the provisions of any international treaty if the Provincial Legislatures do not see fit to act in the matter.

A Change. In connection with the National Industrial Conference of last September, when legislation on the eight-hour day appeared to be of purely domestic concern, it was proposed to refer to the Supreme Court of Canada the jurisdiction of the Federal Parliament and the Provincial Legislatures in governing hours of employment. The adoption subsequently in Washington by the International Labor Conference of a draft convention on the subject of the eight-hour day in industrial employment has changed the situation somewhat, it is said in the Minister of Labor's announcement to-day.

AMERICAN TROOPS LEAVE SIBERIA

London, March 3.—The American troops have virtually completed their evacuation of Siberia, the Soviet Government reports from Moscow. A wireless dispatch from the Soviet capital to-day said that "the last American detachment evacuating Siberia" had reached Vladivostok.

MAY BE MODERATOR

Toronto, March 3.—Rev. Professor James E. Blain, of Knox College, this city, was nominated by the Toronto Presbytery yesterday as the next Moderator of the Presbyterian General Assembly of Canada.

Rev. Dr. John Neil's resignation as pastor of Westminster Presbyterian Church, Toronto, was accepted and will take effect at the end of the month.

BRITAIN TO MAKE HER REVENUE AND OUTLAY BALANCE

London, March 3.—Replying to a question in the House of Commons yesterday, the Chancellor of the Exchequer said that in the budget shortly to be submitted, revenue and expenditure would balance.

MARY PICKFORD IS GIVEN DIVORCE IN NEVADA STATE

Reno, Nev., March 3.—Mary Pickford, motion picture star, was granted a divorce from Owen Moore on Monday evening at Minden, a small town near Carson City, on grounds of desertion.

PREPARING FOR TRIALS IN GERMANY

Government Requires War Criminals to Make Known Their Whereabouts

Effort in Prussian Diet to Deprive Hohenzollern of Property

Berlin, March 3.—A proclamation issued to-day calls upon all Germans who believe their names to be on the list of men whose extradition is demanded by the Allies to make known their places of residence to the Attorney-General.

W. Hohenzollern. Berlin, March 3.—Via London, March 3.—First steps to deprive William Hohenzollern former Kaiser of Germany of his property and fortune began in earnest to-day when the motion of the Majority Socialists of the Diet to refer the issue to the National Assembly precipitated an acrimonious debate. The Majority Socialists, led with the Independents in denunciation of the former ruler in an effort to defeat the proposed settlement by accomplishing the confiscation of the Hohenzollern possessions. This would be done through constitutional amendment, voting the former Kaiser a fixed sum for his maintenance.

Premier's Speech. Deputy Graf, a Majority Socialist, declared that the ex-ruler had failed to live up to the historic precedents of his race. He had not died at the head of his troops. He had chosen, instead, the Deputy continued, a mid-night flight to Holland, where "he now is promoting and sawing wood."

Conferees. The judiciary committee now will take the bill under advisement and conferences are expected to last many days.

The motion of the Majority Socialists providing for action by the National Assembly has been temporarily tabled.

TEN DOLLAR CITIZEN TAX IS ADVOCATED

Suggestion Is That It Might Catch Those Not Paying Education Costs

A proposal that a clause should be inserted in the Municipal Act giving any municipality the right to levy a ten-dollar citizen's tax for educational purposes, was laid before the Municipal Committee this morning by Mayor J. J. Johnston and Alderman W. H. Keary, of New Westminster.

They pointed out that such a tax would enable them to meet deficits in revenue and also that it would be levied on many persons who pay that at present escaped taxation. Among these were Orientals and a floating white population that drifted in with their families for a few months, then enjoyed the privileges of the schools and other public institutions without cost.

George Bell, chairman of the committee, asked if it intended to include women.

Mayor Johnston said he thought it reasonable that women wage earners should be included in a five-dollar tax. J. W. Jones pointed out that many girls working in stores did not earn nearly so much as men.

Max Johnson agreed that it might be made so as not to operate below a certain salary, say \$65 a month.

Pointing to the serious condition of New Westminster's finances, and to the possibility that its tax rate will be raised to forty mills this year, the representatives of the Royal City urged that some relief be afforded.

It was pointed out that the municipalities were unable to collect any taxes from a number of men and women who lived outside the municipality, but earned their living within the city limits. Nor did the municipality collect taxes from tourists whose children attended the schools, and who enjoyed other city services.

The committee agreed to consider the proposal and further that they would consider an extension of time for striking the municipal rate from March 15 to April 15.

The committee also decided to recommend to the Attorney-General the proposal of the Union of B. C. Municipalities that they should not be held liable for the maintenance of indigent persons who have not resided within a municipality for one year. Formerly this liability was limited to three months' residence. The proposal is that in cases where persons have not resided in a municipality for one year their case shall be taken up with the Provincial Board of Health.

FIFTEEN FREED. Grand Rapids, Mich., March 3.—Judge Sessions this morning freed fifteen more defendants in the Newberry election conspiracy case.

REPORT NOW SAYS PORTUGAL MADE INTO A SOVIET REPUBLIC

Madrid, March 3.—Reports from the Portuguese frontier to-day declare that the workmen in Portugal have proclaimed a soviet republic. The postal, telegraphic and other workers are said to have joined the railroad men in the move. The news has not been confirmed.

HOG ISLAND YARD ABOUT TO BE SOLD

United States Shipping Board Will Dispose of Great Shipyard

Washington, March 3.—The United States Shipping Board is ready to sell Hog Island, the great fabricating shipyard built during the war.

Chairman Payne announced to-day that title to the yard site had been perfected by payment of \$1,757,000 to the American International Shipbuilding Company, which owned the land, and that he was ready to receive tenders for the property.

GRAND MERE, QUE., WILL HAVE BEER AND LIGHT WINES

Quebec, March 3.—Prohibition was abolished by a huge majority in Grand Mere yesterday. There are about 1,200 voters in the town, and of these over 500 cast votes. Only ten voted in favor of prohibition, so that Grand Mere is now to have beer and wine under the new provincial license law.

Recently the cities of Three Rivers and Shawinigan also abolished by vote the local option prohibition by-laws.

STRIKE THREAT IN UNITED KINGDOM

Over 150,000 Highway Transport Workers Want Higher Pay

London, March 3.—Great Britain is threatened with a nation-wide strike of highway transport workers, involving from 150,000 to 175,000 men. The movement would seriously affect the distribution of food. The headquarters of the Federation of Transport workers has authorized the local executives to hand in strike notices because of the employers' refusal of the men's demands for an increase in pay of ten shillings a week.

A conference, held yesterday at the Ministry of Labor in an effort to compose the difficulty proved abortive, but it is still hoped that at the last minute newly-inaugurated negotiations will enable a settlement to be brought about. The railways, the tramcar lines and the bus services would not be affected.

LINER IMPERATOR BREAKS STEAMERS' WIRELESS RECORDS

New York, March 3.—The Cunard liner Imperator, which arrived here yesterday from Liverpool, broke records for wireless communication by keeping in touch with a single land station during her entire trans-Atlantic voyage. The point was Aberdeen, Scotland.

Red Cross League Plans Relief Work in Russia

Geneva, March 2.—Via London, March 3.—Relations between the old Red Cross and the new League of Red Cross Societies are very cordial, said Gustave Ador, former President of Switzerland, in addressing the Red Cross congress at its opening meeting to-day. M. Ador held, however, that the League could not as yet be considered universal in its scope, declaring "there is something not normal about it, but this matter will arrange itself."

Major-General Sir David Henderson, former Director-General of Military Aeronautics in the British Army and now Director-General of the League, announced in submitting his report that the American and Italian delegations had worked out, independently of each other, complete plans for relief work in Russia.

None of the new states created by the Treaty of Versailles, with the exception of Poland, sent delegates, but all the old European countries, except Germany, Russia, Austria, Bulgaria and Turkey, have representatives here.

Soviet of Radicals In Milan Was Short-lived

Milan, March 3.—In compliance with orders from Socialist leaders, workers who were on strike attempted to resume work yesterday but anarchist groups attacked factories, the tramway and stores and compelled a continuation of the strike.

Radicals seized a number of Milan establishments and proclaimed a soviet, but were expelled by military forces.

An attack on the Labor Exchange by several hundred anarchists was repulsed by troops.

DRYDOCK PLANS HAVE BEEN COMPLETED

Good News of Esquimalt Dock Is Received To-day From Dr. Tolmie

"Plans of Esquimalt drydock are completed. Specifications will be ready for printer March 15. Every assurance that there will be no delay in calling for tenders."

The above is the wording of a telegram received to-day by J. C. McIntosh, M. P., from Hon. S. E. Tolmie, Minister of Agriculture. Dr. Tolmie's message of reassurance will be very welcome here.

PREMIER WILL MEET HANES ON SATURDAY

Will Debate P. G. E. on Platform at North Vancouver As Per Challenge

Apparently accepting the challenge of George S. Hanes, Liberal member for North Vancouver, to appear on the public platform and discuss Pacific Great Eastern Railway affairs, Premier Oliver this morning arranged to speak on the public platform in North Vancouver Saturday night, March 6. The Government Leader received the following telegram upon his arrival at his office to-day from W. D. McFarland, President of the North Vancouver Liberal Association:

"As you are quoted in the press as promising to meet George S. Hanes, P.E., in his own constituency on the public platform, we take this opportunity of inviting you and welcoming you to the city of North Vancouver. Kindly advise the date you can be with us."

Premier Oliver, consumed thirty seconds in dictating his reply, which was as follows:

"Replying your wire of the third, will meet the situation Saturday next, sixth, eight o'clock. Arrangements entirely in your hands. The Premier will cross to Vancouver on Friday evening and will return Saturday night."

Mr. Hanes, member for North Vancouver, says that he will be present to meet Premier Oliver in his constituency on Saturday night. He declares he is quite ready to stand by any charges he has made.

A WOMAN ELECTED.

The Hague, March 3.—Mrs. Pothuis Smit, a Socialist, was elected to the upper House of the Dutch Parliament yesterday. She is the first woman member.

ATTEMPT ON LIFE OF FRIEDERICH IN HUNGARIAN CAPITAL

Budapest, March 2.—Via London, March 3.—(Associated Press).—An attempt was made this morning to assassinate Stephen Friederich, former Premier and Minister of War in the present Hungarian Cabinet. Several shots were fired at his motor car as he was crossing the Elizabeth Bridge. Friederich was not injured, however.

The War Minister's assailant escaped in an automobile held in readiness.

Turkey Allowed Only Small Army and Are to Destroy Warships

Allied Council Decides Turkish Army Is to Be of Such Diminutive Size That It Could Not Be a Menace to Any Other Nation.

London, March 3.—The disposition of the Turkish navy was definitely settled by the Allied Supreme Council to-day, when it decided that the peace treaty would provide that the warships should be broken up.

The Turkish army will be reduced to such a point by the peace terms that it would not be effective against another country.

The Council deliberated this morning over the report of Marshal Foch on the military situation as regards Turkey, but it did not determine on the question of details of the military terms of the treaty.

Paris, March 3.—(Havas).—Turkey's army will be limited to a number of troops necessary to maintain order in Asia Minor, according to The Journal, which says Turkey will be compelled to keep her armed forces on the Asiatic side of the Bosphorus.

30,000 IRON AND STEEL WORKERS ON STRIKE IN BENGAL

Jamalpur, Bengal, March 3.—Thirty thousand iron and steel workers are on strike here.

MOVE TO RELIEVE WINNIPEG ACCUSED

Defence Counsel Will Ask Case Be Taken From Jury

Winnipeg, March 3.—(Canadian Press).—The accused in the trial of the seven accused strike leaders from the jury will be made by the defence following the conclusion of the Crown's case, according to an announcement to-day by Ward Hollands, counsel for the defence. The motion will be made by the senior counsel, R. A. Bonnar, K.C., and according to Mr. Hollands, will be on ground of insufficiency and irrelevance of evidence against certain of the accused.

The jury was excluded from the court during the entire session this forenoon while counsel for the defence examined the evidence in the articles they wished put in by the Crown to explain evidence already in. William Ivens, one of the accused, claimed that the Crown had deliberately omitted portions of articles to leave a wrong impression on the minds of the jury.

RAILWAYS' OFFICES ARE IN MONTREAL

Traffic Department of Canadian National Railways Ordered to Move

Toronto, March 3.—All hope that the head office of the Canadian National Railways would be established in this city was dissipated to-day when the staff, which occupies a floor of the Royal Bank Building here, received the following notice:

"The traffic department of the Canadian National Railways will move from Toronto to their head office in Montreal within a week. The staff consists of fifty employees."

SIR ROBERT BORDEN GOES TO CHARLESTON

Some Who Saw Him in New York Make Optimistic Predictions

New York, March 3.—Sir Robert Borden, accompanied by Lady Borden, has gone to Charleston, S. C., the Prime Minister, after his voyage and a day spent resting here, was feeling much improved, in health. He caught a cold on the first day of the voyage and was still feeling the effects of it when he reached Halifax. He is now reported to have shaken it off and appears to be well on the road toward complete recovery.

Sir Robert declined to discuss his future plans, but it was predicted by those who saw him here that he would be able to resume his duties within a comparatively short time and that Ottawa might expect to see him back in harness before the session is very far advanced.

JELICOE'S REPORT TO BE KNOWN SOON

Probably Will Be Tabled in Commons Next Week, Says Ballantyne

Ottawa, March 3.—Hon. C. C. Ballantyne stated to-day that the report of Admiral Lord Jellicoe on the Canadian naval situation probably would be tabled in the House of Commons early next week. It is now in the hands of the printer.

Although the Minister of Marine declined some days ago to state whether the Government proposed to introduce legislation based on the report, he intimated that the Government had decided on its attitude in the matter.

Question. Ottawa, March 3.—The number of conscripts who were sentenced by virtue of the Military Service Act, and the number jailed, fined or allowed to go without payment of such fines or who served their sentence, comprise an inquiry by J. A. C. Ether, M. P. for Laval and Two Mountains, to be made in the House to-morrow.

DECLARES QUEBEC AWAKTS ITS HOUR

Gauthier Tells Commons Province Not Ready to Hold Conference

Ottawa, March 3.—"The hour of Quebec"—the words rang through the Commons chamber yesterday, precipitating a clash which enlivened the debate on the address, already becoming rather wearisome. It was Mr. Gauthier who used the words; and previously there had been reference to the need for better relations between Quebec and the rest of the Dominion.

"Speaking in my own name and that of the Province of Quebec," Mr. Gauthier declared, "I will quote the words of one of our public men, who says that the Province of Quebec is not in a state of mind to enter into any conference."

Mr. Gauthier continued: "The Province of Quebec has been badly treated. It has been slandered. It is waiting for its hour. After that it will confer, not before."

The words brought J. H. Burnham, West Peterboro, Ont., to his feet. He demanded to know if they were intended as a threat.

"It is not a threat. It is a declaration," Mr. Gauthier called back.

Mr. Burnham again protested. "The difference between a threat and a declaration of that kind," he retorted, "is that the man who makes it is afraid to back it up."

"You have no right to insinuate that I am a coward," sharply replied Mr. Gauthier.

The Speaker intervened. Mr. Burnham remarked that he was not attributing physical cowardice to Mr. Gauthier. "I was attributing to him moral cowardice."

Mr. Burnham was proceeding again when the Speaker intervened. He asked Mr. Burnham to withdraw. Mr. Burnham complied, further remarking that he did not care a brass farthing "whether they threaten or whether they don't," and the incident closed.

QUESTION AT OTTAWA ABOUT CATTLE EXPORTS

Ottawa, March 3.—(Canadian Press)—The old, old question of the embargo of Canadian cattle exported to Great Britain and what is being done by the Government in the matter will be revived in the House by C. A. Fournier, Bellechasse.

Mr. Fournier also will ask if the exportation of hides to the United States has been stopped with the exception of those allowed under special permit. He also will ask details of such permits.

Increased pensions for supernumerary employees of the intercolonial Railway between Montreal and Halifax, as well as a return showing the number of official and business cars in use on the Canadian National, also will be asked by Mr. Fournier.

Clogged Nostrils Open Breathing Made Easy, Catarrh Cured!

New Method Very Successful

It is a new method of treatment, that of medicated air, and cannot fail to be beneficial. It goes wherever air can go, thus reaching all the affected parts. It purifies as by fire, simply burning up the disease germs. Catarrh is a non-poisonous and healing agent; it therefore acts upon the mucous tissues of the throat, nasal passages, and bronchial tubes, destroying all microbe life, and at the same time heals up all the inflamed parts.

As a cure for Catarrh, Bronchitis, Asthma, La Grippe; as a strengthener for the throat, Catarrh is unequalled.

It is a guaranteed cure, and is highly endorsed by prominent physicians who use Catarrh in their practice.

Sufficient Catarrh for two months' use, price \$1.00; smaller size 50c.; at all dealers.

DEBATE PROCEEDS IN OTTAWA SENATE

Ottawa, March 3.—Senator Bostock, Leader of the Opposition, and Senator Loughheed, Government Leader in the Senate, yesterday afternoon were heard in the debate on the address in reply to the Speech from the Throne.

Senator Bostock urged trade with countries which accepted the Canadian dollar at face value, and advised that this would stimulate trade within the Empire.

He characterized the action of the Board of Commerce in removing the restrictions on sugar as childlike.

Benefits. Sir James Loughheed said the work of the Board of Commerce on the whole was good, and had resulted in benefits to the people of the country.

The greatness of Canada in future depended largely upon the development of manufacturing. While Canada was an agricultural country, there were other natural resources to be developed.

Senator Chapais, in seconding the address in reply to the Speech from the Throne, endorsed proportional representation.

AMERICAN NAVY CONTINUES TO GROW

Newport News, Va., March 3.—The superdreadnought Maryland will be launched here March 20. She is the largest ship yet constructed for the United States navy, being 600 feet long and 97 feet broad and having a displacement of 32,000 tons. Her main battery will be composed of eight 16-inch rifles, the heaviest guns used on a naval craft.

The Maryland will be the first of a class of four similar ships, to be followed by six 45,000-ton ships which will carry twelve 16-inch guns each, and will have higher speed.

BEST MEDICINE FOR WOMEN

What Lydia E. Pinkham's Vegetable Compound Did For Ohio Woman.

Portsmouth, Ohio.—"I suffered from irregularities, pains in my side and was so weak at times I could hardly get around to do my work, and as I had four in my family and three boarders it made it very hard for me. Lydia E. Pinkham's Vegetable Compound was recommended to me. I took it and it has restored my health. It is certainly the best medicine for women's ailments I ever saw."

—Mrs. SARA SHAW, R. No. 1, Portsmouth, Ohio.

Mrs. Shaw proved the merit of this medicine and wrote this letter in order that other suffering women may find relief as she did.

Women who are suffering as she was should not drag along from day to day without giving this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. For special advice in regard to such ailments write to Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of its forty years' experience is at your service.

MADE ATTACK ON PROHIBITIONISTS

J. H. Burnham Told Commons Industrial Alcohol Is Business World's Hope

Ottawa, March 3.—A bitter attack upon the prohibitionists by J. H. Burnham, Peterboro, featured the opening of last evening's session of the Commons. After declaring that the day of coal was over and that electricity was not nearly so valuable to the business world as industrial alcohol, Mr. Burnham said this same industrial alcohol was the hope of the business world, but was in danger of being lost through the narrowness of the prohibitionists.

"Even the alcohol which comes to Canada now has to go to Ottawa because of the nervousness of the prohibitionists, and be diluted before it is sent out over the Dominion," he said.

"If you would have the country thrown into the same frightful explosion as this very same cause, then let the individual rights and individual liberties continue to be trampled upon."

There never was any system which could substitute "must" for "ought," he declared.

On the racial question the speaker urged Ontario and Quebec to remember that if they both would be ruined. He concluded his speech and his reference to prohibition by declaring that "we must drop the racial and party cry. We are all men and should be loyal—loyal to old affiliations to some extent, but within reason. We are all human beings and must lay by our racial and human liberties and human rights."

COMMUNISTIC MOVES FEARED IN VIENNA

Vienna, March 2.—Via London, March 3.—Generally circulated reports of increasing Communist activities in Vienna find publicity in The Mittag Post, which calls attention to the appearance here of a new Communist weekly printed in the Hungarian language under the name of International.

The paper will soon appear in Russian, French, English and German. The Mittag Post asserts that the associate editors are Bela Kun and his interned assistants. Bela Kun is writing under the nom de plume of Blasius Kolosvary.

The Government discredits the reports, and denies that Bela Kun and other interned Hungarians are in contact with Communist workers in the Russian Soviet. It says that Bela Kun is under military and police surveillance in an isolated pavilion at Stockeufel, Lower Austria.

Bela Kun, the former Communist Dictator of Hungary, and several of his henchmen were reported in advices on March 1 to have escaped from Austria and returned to Hungary. The fear was expressed that they might attempt to regain power.

While the Ambassador declines to give interviews, he speaks freely of his impression that the chief possibility of friction or ill-feeling between the peoples of the two countries in the near future lies in the inevitable business rivalry between the two because of their paramount position at the present time as the two great commercial powers of the world whose present resources for trading equal, if they do not exceed, the resources of all the rest of the world. This position, he considers, need not cause misunderstanding if the two peoples have the goodwill to try each to put itself in the other's place.

He brings to his new office none of the prejudices of the old school of European diplomats, who considered high politics their sphere and trade almost beneath their dignity.

WOULD CUT TRADE WITH THE STATES

In Commons D. D. McKenzie Condemns Present High Rate of Exchange

Ottawa, March 3.—"While I am anxious for the widest possible trade with foreign countries, I would not trade to the extent of one five-cent piece with any country which will not recognize any Canadian dollar at the full face value of that dollar," said D. D. McKenzie, former House Leader of the Liberals, during the debate on the address in reply to the Speech from the Throne in the Commons yesterday afternoon.

Not Democratic. Dealing with the Government, Mr. McKenzie declared the last election was not a democratic election; it was not a fair election; it was not a proper expression of the will of the people.

In regard to shipping, Mr. McKenzie said the Government was now paying four times the price it would have to pay had it carried out the policy of the Liberal party.

Deluged. The Government claimed to have done great things for returned soldiers. "I put the returned soldier to witness," Mr. McKenzie went on. "What do the returned soldiers think of the administration? The leader of the Government has been deluged with petitions asking him to dismiss the Minister in charge of re-establishment."

The Government had not a single friend among the soldiers. If it were submitted to a plebiscite the Government would be wiped out of existence.

Not Prepared. H. M. Mowat, Unionist, Parkdale, followed Mr. McKenzie. He did not believe Mr. King, the Leader of the Opposition, was sincere in his amendment. He himself was not prepared for an election. "And if he goes to his party leaders in his own province they will quickly tell him so," said Mr. Mowat. He twitted the Leader of the Opposition on the efforts of his supporters to carry Assiniboia, and continued: "I have no doubt that if an election were called the result would be the same as in 1917."

Mr. Mowat urged better relations with Quebec and the placing of Canadian honor before racial cries. One remark he made rather surprised his supporters to carry Assiniboia, and continued: "I have no doubt that if an election were called the result would be the same as in 1917."

Unionist. "I have found more radicals on this side of the House than I found among my old friends," he remarked. "I have been astounded to find the uprooting some alleged Tories are prepared to do."

Election Plea. L. J. Gauthier, St. Hyacinthe-Riville, made a plea for an election, not in the interest of any party, but in the public interest. Even if the Government were returned to power at a general election and the Opposition defeated, the election would have been justified.

Condemned Government. Mr. Casgrain, Charlevoix-Montmorency, referred to Sir George Foster and Mr. Rowell as uprooting a Government composed of remnants, makeshifts and green grocers.

A question by J. H. Burnham, Peterboro, condemned Canadians who persisted in buying goods outside of Canada at enormous exchange rates.

AMBASSADOR GEDDES UNDERSTANDS TRADE

London, March 3.—Sir Auckland Geddes will be the first British Ambassador to go to the United States with a considerable knowledge of trade affairs and a strong conviction of their underlying importance to the two countries in the post-war era.

Lord Reading, as Ambassador, had business experience, but his mission was concerned largely with war finance.

Sir Auckland Geddes, as President of the Board of Trade, had partial knowledge of the consular service, while dealing also with the most important business questions of the Kingdom.

He brings to his new office none of the prejudices of the old school of European diplomats, who considered high politics their sphere and trade almost beneath their dignity.

While the Ambassador declines to give interviews, he speaks freely of his impression that the chief possibility of friction or ill-feeling between the peoples of the two countries in the near future lies in the inevitable business rivalry between the two because of their paramount position at the present time as the two great commercial powers of the world whose present resources for trading equal, if they do not exceed, the resources of all the rest of the world. This position, he considers, need not cause misunderstanding if the two peoples have the goodwill to try each to put itself in the other's place.

Smartly Tailored Tweed Suits For Early Spring Wear

EXCEPTIONAL VALUE AT \$30.00 TO \$55.00

And what smart styles they are! embodying the newest fancy tweed mixtures and colorings. The coats in most cases have narrow belts and are trimmed with buttons, while the skirts are plainly tailored, and the attractive priceings are sure to increase their popularity.

For general wear, there is no garment can take the place of the Tweed Costume. Besides being practical and serviceable they are very stylish and much in vogue for early Spring wear.

DAVID SPENCER, SR.

In the death of David Spencer, Sr., Victoria has lost a pioneer whose career has been marked by exceptional achievement in the field of commerce and industry, and who in many other ways has been a prominent figure in the life of the community. He had been ailing for several years and on more than one occasion in that period the vital spark had become ominously dim, but each time the indomitable tenacity which had long been one of his outstanding characteristics had come to his aid and he would rally past the danger point. A few days ago, however, it became plain that the human machinery, busy so long, was nearing the limit of its activity, and the end, which came at noon yesterday, was expected by those conversant with his condition.

Mr. Spencer came to Victoria fifty-eight years ago, at the age of twenty-five, and not long afterwards began in a modest way the business career which in many respects has not been equalled by more than a very few men in western Canada. He was a man of extraordinary energy, initiative, foresight and determination, and to these qualities added an unusual fund of commercial sagacity and shrewdness. With such a combination he was bound to succeed in any field and the measure of his success could be limited only by the limitation of the sphere in which he was placed.

In a wider field, such for example as the populous centres of the East, Mr. Spencer undoubtedly would have attained national reputation as a merchant prince of the calibre of Timothy Eaton, Marshall Field or A. T. Stewart. He was fortunate, it is true, in the co-operation and ability shown subsequently by his sons, who inherited many of his business qualities, but it was he who bore the heavy burden in the heat of the day and, by his sacrifices, made possible the development of the splendid emporium of trade which bears his name in three cities, and which will be his most imposing monument.

But Mr. Spencer, busy man of business though he was, had numerous other activities which made him a prominent factor in this community. He was one of the pillars of British Columbia Methodism and held many offices in connection with the Methodist Church of Victoria, whose interests always were close to his heart, and whose associated activities for humanity's sake found in him and his devoted wife a constant source of support and encouragement. With the exception of an aldermanic term in 1871, he did not participate actively in public life, although he was keenly interested in every phase of the development of the country, and his vigorous mind, notwithstanding its many other distractions, easily familiarized itself with public questions, a characteristic which was noticeable almost up to the time of his death.

Fifty-three years ago Mr. Spencer took to himself a wife who proved an ideal life's partner, and to whose devotion, encouragement and ever-ready sympathy he owed much of his success, especially in the days when his path was beset with difficulties and progress was gained only by hard struggle. The union was blessed with thirteen children, and it is a remarkable circumstance that this is the first break through death in that spacious family circle. In both Mr. and Mrs. Spencer the domestic virtues were highly developed, and they never have been happier than in the periodical reunions in which they have been the hosts to their children and grandchildren. Widespread sympathy will be extended to the widow and family in their bereavement, while the Province generally will regret the loss of one who was so long a commanding figure in its commercial life.

MR. SLOAN'S RESOLUTION.

There should be no hesitation on the part of the Ottawa Government in complying with the request embodied in a resolution passed by the local Legislature yesterday afternoon. That resolution urges upon the Federal authorities the necessity of maintaining geological survey operations in British Columbia on an adequate scale.

In his amplification of the resolution the Hon. William Sloan recounted to the House an interesting and informative review of the tremendously important work carried out by the Geological Survey of Canada from its origin in the early forties until the present time.

The Minister pointed out that British Columbia essentially was a mining Province and if it was to be denied the services of the geologist—upon whose expert opinions the industry primarily depended for its development—except in an almost negligible measure, neither the Dominion as a whole nor the Empire at large could expect an increase

in the production of her minerals whose value in the commercial field, and as a fundamental basis of industrial expansion in particular, needed no emphasis. It is disquieting to learn from Mr. Sloan's observations that one of the prime reasons for the recent resignations of a number of expert geologists from the Geological Survey Department is that of meagre remuneration. By virtue of the reminder that will now go to Ottawa from this Province, however, it is to be hoped that the importance of continuing this work in British Columbia will be brought home to those in charge of the survey.

We need hardly emphasize, of course, the extent of Vancouver Island's interest in this particular subject when it is remembered that the Sunloch Mine came into being as the result of a location made by Mr. G. E. Winkler, whose enterprise was based solely upon the expert view of the Geological Survey expert who had recounted his findings in respect of local copper formations in one of his reports.

THE ISLAND IS MODEST.

Out of fifteen requests made to the Government this morning by the Good Roads League, Vancouver Island is interested particularly in two of them. The one is an extension of the Island Highway from Campbell River into the Salmon Valley, primarily to provide for the settlers in the Sayward district, and the other is concerned with a twenty-five mile extension for the benefit of settlers in the San Juan district—an undertaking, by the way, promised half a century ago. This very modest share in the catalogue from a section of the Province possessing approximately one-quarter of the population assuredly exonerates us of any charge of greed, and we shall look forward to an announcement from the Government foreshadowing early action in respect of these roads. In the meantime our advice to the Good Roads League is a "drive" on Ottawa in support of the diversion of a million or two of the emergency dole to the construction of much needed highways in British Columbia.

GREAT BRITAIN AND RUSSIA.

According to a dispatch from the Rome correspondent of a Buenos Ayres journal the basis of Great Britain's proposals for an understanding between herself and Soviet Russia is contained in eight "points." She is said to be ready to agree to a tacit recognition of the Maximalist political regime, the non-interference with the internal condition of those countries separated from former Russian rule, while she requires Russia to demobilize the Red army, and to establish a regime of commercial equality in the autonomous states of the western frontier. It is also provided that payment should be made in gold for goods exported between the two countries, and Russia is to refrain from interfering with the territories on the frontiers of Persia and Georgia, as well as agree to a recognition of the independence of the latter and other meridional republics.

The correspondent says the Moscow Government is disposed to accept a number of the provisions, but resolutely refuses to demobilize the Red army or to give any assurances with regard to Bolshevik aims in Georgia and Persia. Therefore, if these are the proposals transmitted to Maxim Litvinoff by James O'Grady, the British representative at Copenhagen, and the Lenin regime is determined to reject the two most crucial points in the list, amicable relations between the two countries would appear to be as far off as ever they were. Obviously there must be a definite undertaking on Russia's part to curtail her military activities before she can be admitted to the benefits of trade interchange, and until the Moscow Government adopts a less threatening attitude towards Persia—with its eventual challenge to British rule in India—the obstacle to an understanding remains.

Major Hugh M. Caldwell has been elected mayor of Seattle by the largest majority ever recorded. He polled 16,781 votes over his opponent, James Duncanson, secretary of the Seattle Central Labor Council and one of the strike leaders of last year. Evidently the people of the Sound City are blessed with good memories while the precedent set by Ole Hanson in dealing with extremist activities still appears to hold good.

Two branch offices of British Columbia House will operate in Manchester and Glasgow and their organization has been determined by the volume of business reaching London from these sections of the British Isles. This announcement, made by Agent-General Wade in Vancouver yesterday, augurs well for future activities in behalf of this Province in the Old Country.

Enver Pasha is said to have been living in Berlin for the past week under an assumed name. This gentleman is altogether too elusive for us to keep track of him. We will wager, however, that he has lost hope of ever getting much practical support for the revival of another Young Turk movement from his former employers at Berlin. And what is the matter with the throne of Kurdistan?

Henceforward the "big five" packing combine is to be restricted in its operations to meat and produce, and in future when a fair lady enters a drug store to purchase a delicate brand of perfume she will not inspect it to see if it is marked by a delicate "ring" trade device. The unholy quintette can do enough damage in its own line.

MR. ASQUITH AND PEACE POLITICS.

Our view of Mr. Asquith's position was stated some weeks ago, and his speech at Manchester serves to confirm it. It is a real loss to public life and a defect in parliamentary efficiency that he should be excluded from a House of Commons which sorely lacks critics of his ability and experience. With his attempt to vindicate his record as Prime Minister in war time we have no sympathy; but the very defects which he showed then were the defects of qualities that have their permanent value in peace politics.

TO OPEN HIGHWAY TO COLWOOD SOON

Motor and Tourist Travel Here to Surpass All Records, C. P. R. Warns

The Island Highway from Craigflower Bridge to Parson's Bridge, which has been closed for the last nine months during paving operations, will be opened for motor travel in parts before the end of this month, A. E. Foreman, Public Works Engineer, told the executive of the Victoria and Island Development Association yesterday afternoon.

Opening of the whole road at present is being held up by heavy rock cutting around the Four-Mile Hill. It may be some time yet before this work is completed. Mr. Foreman, however, plans to do away with the detour of Spring and Summer motor travel by running temporary road links on the side to connect the parts on which the paving is already completed.

Ferry Services For Motorists. Adequate ferry facilities for motor cars coming to the Island were taken up with Capt. Troup, B. C. Coast Manager of the M. P. R. to-day. He has already made provision for the necessary accommodation between Nanaimo and the Mainland and is working on connecting between Victoria and Port Angeles.

The Development Association is also to take up the problem of the connection with the Puget Sound Navigation Co. This company has already built a motor ferry to ply between Seattle and the head of Puget Sound, to cut off the long road trip south around by Tacoma. The only part of the route that is now lacking is adequate water connection in the jump from Port Angeles to Victoria.

Travel to Set Record. The C. P. R. is now busy notifying all hotels in Western Canada, that tourist travel this Summer is to be seventy-five per cent. greater than ever before. This is based on bookings up to date. So great is the demand for Summer accommodation that the C. P. R. is already turning down applications for parties demanding special trains. Every sleeping and dining car that will stand a trip across the continent is being put into shape to provide accommodation. The C. P. R. Coast steamship department is planning to bring all the tourists to Victoria that its boats can handle.

J. Carl Pendray was elected President and W. A. McAdam, Vice-President of the Association. The executive board of the Development Association yesterday confirmed the appointment of J. G. Thomson as Publicity Commissioner to succeed W. A. McAdam. The following were elected to the finance committee: Stephen Jones, chairman; George McGregor, Alderman Sargent, George I. Warren and P. R. Brown, jr.

HIS HONOR PRESENTED WAR MEDALS TO-DAY

Interesting Ceremony Performed at the Parliament Buildings This Morning

In the Executive Chamber at the Parliament Buildings this morning an interesting ceremony was performed by His Honor the Lieutenant-Governor in the presentation of a number of decorations won by members of various units attached to the Canadian Expeditionary Force.

Those so honored were as follows: Lieut.-Colonel Norman H. J. deSalis, Order of the British Empire and warrant; Capt. James R. A. Stevens, Military Cross; Lieut.-Colonel C. C. Bennett, 1914-1915 Star; the same decoration also was presented to the following: Major F. B. Edwards, Major J. Hirsch, Major R. I. Miller, Major T. F. O'Hagan, Capt. H. A. Williams, Nursing Sister E. E. V. Alexander, Nursing Sister A. K.

Bruce, Nursing Sister M. E. Morrison, Nursing Sister E. G. Saunders, Pte., now staff-sergeant L. Swift, and Sergt. R. Harrop.

In making the presentations His Honor expressed the pride he felt in being permitted, in his official position, to perform so interesting a ceremony. The men present, he said, would be told by their own comrades more eloquently than he could himself express it the services they had rendered to their King and country.

The work of the nurse in the battle areas, he felt sure, would be regarded always as a debt owing by the men who served in the trenches.

Following the formal ceremony His Honor shook hands all round and expressed the hope that all present would find a successful and pleasant life ahead of them.

Comfortable Chairs For The Living Room

Let your living room be all that its name implies—the one most comfortable part of your home. A visit to the third floor furniture department of this store will provide you with many ideas that can be applied to the furnishing of your living room. Nor will you find that these furnishing ideas are beyond your means to carry out, for every purse as well as every taste is catered to in this complete home furnishing store.

Oak Chairs With Leather Seats
 Always a popular type of living room furniture the dark old English Oak Chair or Rocker. Some nice styles are here, with solid leather or tapestry covered spring seats. Price each is **\$28.35**

OUT OF SYMPATHY WITH DOMINION ACT

Fair Prices Act Unsound, Says Robson, Who Left Commerce Board

Ottawa, March 2.—(Canadian Press)—When the House adjourned last night, Sir George Foster tabled the correspondence between himself and Judge Robson covering the latter's resignation as chairman of the Board of Commerce. Judge Robson stated simply that he found it impossible to remove his home to Ottawa and that his presence was required in Winnipeg. The Acting Prime Minister, in his acknowledgment, accepted Judge Robson's resignation with regret.

On the same day as he resigned, February 22, Judge Robson wrote a long letter to the Acting Prime Minister giving his views on the operation of the Board of Commerce. He suggested that a Federal machine to inquire into costs and profits of commodities and to act in an advisory capacity to provincial boards would be more useful than the Board as constituted at present, the matter of dealing with profiteers being better left, the judge thought, to the provincial authorities.

Higher Prices.
 "The economic policy of the country," Judge Robson wrote, "should be toward high prices and against low prices. Numerous Governmental agencies, at the expense of the people of Canada, are doing their best to get the highest world price for Canadian produce. The view of this, any machinery to reduce the prices of this produce is simply abortive."

The Combines and Fair Prices Act, Judge Robson added, had been administered by the Board to deal only with the necessities of life, and profiteers in other commodities were left to do as they pleased. The effect appeared to be to deter business men from dealing in such necessities of life on which, the judge pointed out, dealers had a right to get the highest price possible in the export market.

Last Chance Removed.
 Judge Robson continued: "It seems to me, further, that the Act actually contains a provision which removes the last chance the consumer had to do anything for himself in reducing the cost of living. There never was before this anything to prevent a

**NEW PROPOSAL FOR
SOLDIER SETTLEMENT**

**Men For Sayward District to
Receive Bulk Contract,
With Advances**

Undismayed by the discouraging report with regard to soldier co-operative settlement in the Sayward District, which was recently issued to the applicants from the Land Settlement Board, J. E. Armishaw, before leaving to-day for his home, has been able to advance his project in an unexpected way.

He has succeeded in obtaining 320 acres as an experiment in the heart of the Sayward settlement, which will be expropriated by the Land Settlement Board. On this land it is proposed to locate a limited number of men, who will take a contract for the clearing in bulk. This policy thus differs from the Merville scheme, where the men are paid \$4 per day, and are expected to put in a standard eight-hour day.

Mr. Armishaw says the Minister of Agriculture is prepared to extend this proposal if the men who will go up on the next steamer make good, and if the contract system demonstrates an improvement on the daily wage plan. The men who will go into the district this week are practical agriculturists, and Mr. Armishaw declares that the problem of securing the Federal aid which has arisen elsewhere will be solved in this effort by requiring a certificate as to experience as farmers from the ex-soldiers before they commence land clearing operations.

The block upon which the experiment in the Salmon River Valley is to be tried is well located, and contains a typical growth of timber. As a sawmill equipment is now being taken into the valley from Vancouver, the men will be able to secure cut lumber for building at a reasonable figure. It is proposed for the purpose of the scheme to provide a donkey engine, and with the river flowing through the section, the logs as fallen can be floated down to the sea, and towed to the paper plants at Powell River, and elsewhere. Most of the valuable timber on the section being spruce, there is a great demand for logs in the paper plants. As some of the men will not have the available funds to carry on until some land is cleared, and under cultivation, it is proposed by the Minister to allow them to secure advances against their contracts meanwhile.

If the experiment succeeds there is a considerable area in the valley which can be secured for settlement under practically similar conditions, and meanwhile efforts will be made to improve steamer transportation into the district, as well as the long desired extension of the Island Highway from the South.

fingers—No pain!

Doesn't hurt a bit! Drop a little Freezone on an aching corn, instantly that corn stops hurting, then you lift it right out. Yes, magic!

A tiny bottle of Freezone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Freezone is the sensational discovery of a Cincinnati genius. It is wonderful.

YOUTHFUL OFFENDERS GET LIGHT SENTENCE

Shoplifting Case Concluded in Conviction of Accused

The case of shoplifting, in which L. Pichon and Miss K. Norris were principals, was decided in the police court this morning. The two accused were found to be guilty on both counts charged against them, and sentenced to two and one month respectively on either count, the sentences to run concurrently.

C. E. Wilson, counsel for the accused stated that restitution of all new materials taken had already been made, and that any article used would be paid for by the accused later. The judge based upon the fact that the two accused were extremely youthful, and had got themselves into the difficult position mostly in the spirit of adventure, and not for profit.

Shoplifting was conceded to be a very common occurrence on the Coast, he claimed, and that out of 150 known cases when articles had been taken, the shopkeepers had brought summons only in one case. Mr. Wilson pleaded that a commitment to jail would only turn the accused permanently in the wrong direction, and embitter them against the system. The stores made the temptation too great by open display of goods, he said.

City Prosecutor Harrison denied that any blame rested in such cases with the stores, but told the court that he did not ask for a severe sentence in this special case. Magistrate Jay, in summing up, said that owing to its being the first offence, and the previous good record of the accused, also to the fact that total restitution would be made, he would only impose a light sentence.

Pichon took responsibility for the act.

ALDERMEN WILL NOT POST MOTIONS NOW

Private Bills Committee Approves of Elimination of Public Notice

City aldermen no longer will have to post public notice of motions which they intend to introduce at council meetings. Instead they will be able to introduce any motion they please without warning before hand.

Decision to allow this change in the present procedure was reached by the Private Bills Committee of the Provincial Legislature this morning. City Solicitor Pringle explained to the committee that the City Council did not object to posting notice of motions, but it considered that by-laws, either by the corporation or by the city, should be made to be posted. Victoria, he observed, was the only city in which this procedure held. The aldermen could see no reason, he said, why they should be under a different rule than the municipal fathers of other places.

The committee could see no objection to the proposed elimination of public notice, and the clause in the Private Bill providing for the change was passed.

Another section which received the approval of the committee was that of the city the continued existence of rights of way over land which has been taken over at tax sales, either by the corporation or by private individuals. At present if land is taken over at tax sales all rights of way and easements are wiped out. It appeared to some members of the committee that the Municipal Act should be so amended that it would grant to all municipalities in the Province the privilege asked for by Victoria.

By a section of the bill which also was ratified the city will have power to divide all classes of licenseholders into sub-classes for the purpose of levying trade licenses. That is, the city is enabled to levy a different license fee upon a lawyer than upon a doctor and so forth.

ASKS COMMITTEE TO INVESTIGATE CASE

Two Farmers Bodies Desires Action to Restrain Orientals Holding Land

Resolutions from the recent meeting of United Farmers and Farmers Institutes in this city were presented to the agricultural committee this morning by Whitney Griffiths, Lionel Taylor and William Harrison.

They asked for the appointment of a committee to inquire into the Oriental problem in the Province as it affects farmers and to prepare a comprehensive report. They pointed out that as the present treaty with Japan expires in 1923 and one year's notice of its dissolution is required, action should be taken now.

They urged that the agricultural estimates for the year should be as high as possible, and that a Provincial Horticulturist should be appointed with control over resident instructors in fruit growing districts. In the discussion they paid a high compliment to the Department for its success in fighting the codling moth, pointing out that no section of North America was as free from this pest as British Columbia.

They asked for cheaper stumping powder, and that information in regard to land available for settlement should be more readily obtainable, and urged that some measures be taken to improve sanitary conditions among Chinese truck gardeners.

OBITUARY RECORD

Many Victorians will learn with sincere regrets of the death of William Nelson Carty, who died in Vancouver on Monday night, succumbing to influenza, at the age of forty-four. The late Mr. Carty until a few weeks ago was secretary of the Conservative party organization in this Province and his political activities brought him frequently to Victoria, where he made many friends. He is survived by his widow and four young children. The funeral service will be held at Christ Church, Vancouver, on Wednesday at 2 o'clock.

The funeral of the late George Deighton has been arranged to take place on Thursday at 2:30 p.m. from the B. C. Funeral Chapel, where service will be held. Interment will be made in the family plot at Ross Bay Cemetery. The late Mr. Deighton, whose wife pre-deceased him two years ago, passed away on Sunday. He had been a resident of this district for about twenty-five years, living for some considerable time on the Spoke Road, where for a time he farmed. He is survived by four daughters and four sons—Mrs. Wm. Gillerit, of Vancouver; Mrs. Charles Crick, of Niagara Falls; Mrs. W. F. Drysdale, of Victoria; George Deighton, of Illinois; John Deighton, of Seattle; Mrs. J. Hocksworth, of Richmond, Cal.; Harry Deighton, of Bowser, B. C.; and Albert Deighton, of Victoria.

The funeral of the late Malcolm Wright Young, who died at the home of his sister, Mrs. A. K. McGregor, 1046 Tonax Avenue, on Wednesday last, took place yesterday afternoon from the B. C. Funeral Chapel at 2:30 o'clock, where an impressive service was conducted by his brother, George Young, of the I. B. S. A. There was a very large attendance of friends and a large floor offering covered the altar. The hymns sung were "Nearer, My God, to Thee," "O Lord Thy Promised Grace Impart," and "If I in Thy Likeness, O Lord, May Awake." Mr. Young was born in Edinburgh, Scotland, and came to Sanich with his parents in 1884.

The funeral of Estie Madeline Pearl Stewart, the one-year and two-months-old daughter of Mr. and Mrs.

- DAIRY FED PORK CHOPS

and all cuts to your requirements.
Our Meat is guaranteed all Grain Fed. Our Prices will command your attention, and a trial is all we ask of you.

A BEDTIME STORY

UNCLE WIGGILY AND SAMMIE'S KITE.

Copyright, 1919, by McClure Newspaper Syndicate.
(By Howard R. Garis.)

"Bing-bang!" That was the door of the Littletail rabbit house slamming shut behind Uncle Wiggily.

"Whoo-ziz!" That was the old rabbit gentleman's tail silk hat blowing off. At the same time a voice began to sing a song about the north winds do blow, and we shall have snow, and what will the robin do then, poor thing? He'll go in the barn, to keep himself warm, and hide his head under his wing—poor thing!"

"Well, said Uncle Wiggily, as he chased after his tail silk hat and tagged it, 'I don't know about the north winds blowing, but the March ones certainly are!'"

Then Uncle Wiggily, who was on his way to look for an adventure, turned around to see who was singing the song about the robin.

"Oh, Sammie Littletail, is that you?" asked the bunny uncle as he saw his little rabbit nephew.

"Yes, it is I," answered Sammie, who was on his way to the hollow stump school. "And I'm so glad the March wind is blowing, aren't you?"

"Well, I can't say that I am," answered the old rabbit gentleman as he pulled his hat down on his ears so hard that his pink nose almost stopped twinkling. "Why are you glad about the wind, Sammie?"

"Because, after school, I am going to fly my kite, and I wish you would help me, will you?" asked the little boy rabbit.

"Help you fly your kite? Oh, yes, I guess so," answered Uncle Wiggily, good natured like and easy going.

"Well, of all things!" exclaimed Nurse Jane Fuzzy Wuzzy, the muskrat lady housekeeper. "Will you ever grow up, Wiggy?"

"I don't know," answered Mr. Longears, who did not know Nurse Jane had heard him. "Anyhow, in China old gentlemen fly kites when they aren't doing laundry work, so I don't see why I can't fly one here with Sammie."

"Oh, there's no use talking to you!" sniffed the muskrat lady, and so she went in the house to talk to Mrs. Littletail, the mother of Sammie.

The rabbit boy hopped on to school, waving his paw at Uncle Wiggily, and saying:

"Don't forget, now. You promised to help me fly my kite!"

sparrow boy, helped Uncle Wiggily tag it this time.

"Thank you, Dickie," said Uncle Wiggily to the little feathery chap. "I guess now I'd better go back and help Sammie fly his kite. The wind seems to be blowing harder."

"Yes, it is," chirped Dickie, and truly, the wind was blowing as hard as never was. It was a good day to fly kites.

Reaching the underground house, Uncle Wiggily found Sammie home from school; and the rabbit boy had his kite with him.

"All right, Uncle Wiggily?" called Sammie. "If you will hold the kite up off the ground, I'll go over in the lot with the string and get ready to make it fly. When I tell you to let go, why let it go; and I'll run with the string and the kite will fly itself up in the air."

"All right," said Uncle Wiggily, giving his pink nose an extra twinkle or two. "I'll hold the kite, Sammie, and you run with the string that is fastened to it. I guess the breeze will take it pretty high up to-day. I never saw such a strong March wind!"

"And, truly, the wind did blow very hard."

Uncle Wiggily took his place in the open field, holding to the kite, Sammie ran ahead a little way, unwinding the string. In a short time the rabbit boy turned and called to Uncle Wiggily:

"Hold on! Hold on!"

"And Sammie called again: 'Let go! Let go!'"

But still the voice from behind shouted:

"Hold on! Hold on!"

"What does all this mean? 'Let go' and 'Hold on!'?" cried the bunny gentleman. "I'm getting all mixed up. Who is telling me to hold on? Is that you Susie?" he asked.

But when he turned around he saw, not the little rabbit sister of Sammie, but the bad old Pipsisawah. It was he who had cried "Hold on!" and meant for Uncle Wiggily to stand still and be caught, so his house could be eaten.

"Let go! Let go!" cried Sammie, for the wind was now tugging at the kite. "Let go, Uncle Wiggily, or the kite will pull you up in the air!"

"Hold on! Hold on!" shouted the

FUNERAL OF MR. DAVID SPENCER TO-MORROW

The remains of the late David Spencer will be laid at rest in the family plot at Ross Bay cemetery on Thursday afternoon. The cortege will leave the residence at Moss Street at 2:15, proceeding to the Metropolitan Methodist Church where the service will be held. The funeral arrangements are in the hands of the B. C. Funeral Co.

Judgment Reserved. — Esquimalt municipal councilors and officials are now awaiting the decision of Judge Lammiman in the County Court action brought by John Jardine to unseat Reeve Lockley. Mr. Jardine, who was the defeated candidate for Reeve at the last election, alleged, through his counsel, J. Stuart Yates, that Mr. Lockley was disqualified because he had accepted contracts from the municipality under the soldiers' housing scheme. It was claimed that Mr. Jardine should be declared Reeve by acclamation. A. P. Luxton, K. C., and H. B. Robertson acting for the Reeve, asserted that the housing contracts had been made directly with the owners of the houses.

Pipsisawah, who was running as fast as he could to catch Uncle Wiggily. "I guess this time I'll do as the Pip says," thought the bunny uncle. "I'll hold on to the kite if it's going up in the air. The Pip can't get me then."

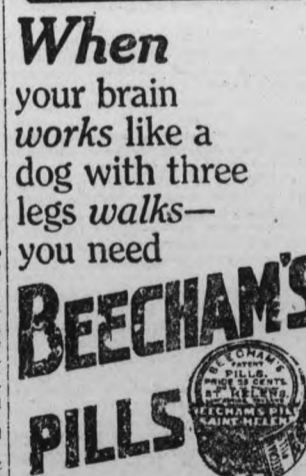

So Uncle Wiggily held fast to Sammie's kite. The March wind blew stronger and harder, and it lifted kite, Uncle Wiggily and all, up in the air and out of reach of the bad Pip.

"Fooled again!" howled the unpleasant chap, as he saw the bunny uncle high above his head. "Fooled again!"

"I'll try not to!" said the rabbit gentleman. He sailed up in the air, far away from the Pip, and then he came down, with the kite, on a soft bed of leaves in the woods and wasn't hurt a bit. And Uncle Wiggily said Sammie's kite was as good as an airship.

Then the bunny uncle and the little rabbit boy had more fun flying the kite only Mr. Longears didn't take any more sails up near the clouds. And the Pip had no sours for supper that night, which served him right.

And if the chocolate cake doesn't hide in the oven of the gas stove, where the apple sauce can't find it to play croquet with, I'll tell you next about Uncle Wiggily and Johnnie's crackers.

BORLAND RANCH TO BE STOCK RESERVOIR

Government Property May Be Utilized for Breeding

Consideration of the Borland Ranch at Williams Lake, the property of the Provincial Government as a possible "reservoir" farm for the breeding and distribution of stock, will be considered by the agricultural committee shortly.

Hon. E. D. Barrow, Minister of Agriculture, last Summer made an inspection of this property in company with John Yanston, Liberal member for Cariboo, both agreeing that there existed a splendid opportunity for establishing such a farm at a minimum cost.

It is pointed out that at present there is no Government distribution farm, imported stock being shipped direct to the settlers. A "reservoir" farm is said to be badly needed in the Central Interior, and the question of opening up this 3,000-acre

Government property for this purpose will be given careful consideration. The ranch is beautifully situated at the western end of Williams Lake. The Pacific Great Eastern Railway runs through the property, steel now being laid to the ranch. There is good water available, as well as good buildings.

Beaches and Parks.—The meeting of the Victoria-Saanich Beaches and Parks Committee, scheduled for today has been postponed until Friday.

TO-DAY'S FOOTBALL. London, March 3.—(By Canadian Press)—Crystal Palace defeated Plymouth by 1 to 0 in a Southern League football game to-day.

BRILLIANT MINISTER VICTIM OF INFLUENZA

Rev. Dudley B. Ashford, Noted Preacher and Lecturer, Well Known on Three Continents, Was Ordered to Give Up Work

Rev. Dudley B. Ashford, Noted Preacher, Lecturer and Missionary.

Reverend Dudley B. Ashford is an extraordinary man. Although still on the sunny side of forty, he has crowded more service to humanity into a few years than most men accomplish in a life-time.

Soon after his graduation from Harley College, London, England, he was ordained minister at the famous New Court Congregational church, London. A short time thereafter he was selected to prevent the cause of Congo Reform and African Missions before the people of Norway, and toured that land with such success that he was greeted by enormous crowds at every meeting.

In 1908, under the auspices of the Colonial Missionary Society, he was sent to New Zealand and for three years labored as a missionary among the Maoris, where his experiences were novel and thrilling.

In 1916 he returned to England and served for three years at Wood Street Congregational church, Cardiff, South Wales, the biggest Congregational church in the British Empire. It was while here that he fell one of the early victims of the great 1918 epidemic, an attack from which he had not fully recovered when he accepted a call to the Queen's Road Congregational church, St. John's Newfoundland, where his forceful preaching soon attracted record congregations.

The strain of this work upon his undetermined constitution proved too severe and he suffered a nervous breakdown, from which now, however, he has completely recovered. Moved by a desire to serve his fellow men he has recently written a letter that tells how he was restored to health and strength.

Moved By Gratitude.

This letter, addressed to The Tanlac Co., Atlanta Ga., is an eloquent expression of gratitude and is as follows:

"Gentlemen: Your medicine, known as 'Tanlac,' has been such an inestimable blessing to me, that I feel constrained to write and tell you so. In October, 1918, while a minister of the Wood Street Congregational church, Cardiff, South Wales, I had a severe attack of the Spanish influenza, from the effects of which I never fully recovered. I lost twenty-eight pounds in weight and was unable to recover my usual energy.

"Then, in February, 1919, I became the minister of the Queen's Road Congregational church at St. John's, Newfoundland. My ministry was attended with great success, but the strain proved too great for me and I had a serious breakdown. My nerves seemed to go all to pieces and my digestion became so deranged that

I could eat scarcely anything. My heart gave me a lot of trouble; it was an effort to walk upstairs and at night I used to be awake in continual dread lest my heart should stop beating altogether.

"Then, as a result of exposure one winter's night in a small boat, while in the execution of my duties, I was seized with violent pains in the right shoulder and arm, which nearly drove me to distraction. I consulted doctors and specialists and underwent massage and electrical treatment, without getting much relief. I was ordered to give up all preaching and public work for at least three months, and I began to fear my health was permanently affected.

He Had Been Skeptical.

"I had always been rather skeptical of the testimonials concerning the merits of any medicine, but one day I read the statement of a man whose symptoms seemed to be identical with my own, and his praise of Tanlac rang so true I decided to give it a trial myself. I bought a bottle and it was almost immediate. My nervous condition began to disappear and I began to get sleep at night. My appetite so increased that I could scarcely put on weight rapidly. By the time I had taken the fourth bottle, the pains in my arm and shoulder disappeared and I am feeling better to-day than for a long time past.

"I feel that I should be guilty of base ingratitude if I did not write and tell you what a boon Tanlac has been to me, and I give you this unqualified testimonial to use as you may think best, in the hope that others may find in your wonderful medicine the means to restored health and strength.

"Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and R. C. Lang, Esquimalt Road.

LETTERS

Letters addressed to the Editor and intended for publication must be short, and legibly written. The longer an article the shorter the chance of its appearing. All communications must bear the name and address of the writer, but need not be published unless the owner wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for MSS. submitted to the Editor.

SOUTH OF THE GOLDEN WEST.

To the Editor,—As we look at the rapid succession of innovations taking place in Victoria and meeting with such splendid success, the greatest amongst us must experience a sense of pride and pleasure in the exhibition of public spirit shown in our shipbuilding and co-operative stores movement.

The shipbuilding movement is original, and is the effort of the sons of fathers who went forth into the forests in the depths of Winter and whittled out a schooner with the axe. Like father, like son, they are doing practically the same now, under the conditions of the times; and those of us who are unable to help with our usually ready, but now empty purse, must clasp them on the back, and never miss an opportunity to help the great project with a cheery word and a hearty handshake.

Success will be theirs. They are men of the West with red blood coursing through their veins, and such men with such a purpose never fail. The shipbuilding and co-operative stores movements go hand in hand, and are both worthy of the utmost support as public institutions.

In their gallant response the citizens of Victoria are living up to their reputation. It is indeed a city of ladies and gentlemen, for nowhere in the world is the solicitor heard more courteously or responded to more generously than by the people of this fair city.

This letter, Mr. Editor, is not an attempt to boost local enterprises by running the gauntlet and leaping over the wicket of the advertising department, but an endeavor to encourage the citizens of Victoria to repossess themselves of that which they lost through the fortunes of war—the right to work and live and be as happy as they are used to be.

ROBERT LEGION,
512 Fort St., Victoria, B. C.

THE SUGAR SHORTAGE.

To the Editor:—In The Times Friday's issue appeared a letter signed "Householder" complaining of profiteering in sugar by certain Chinese stores, in which the price charged for sugar was 20 cents per pound, as against the price fixed by the Board of Commerce of 16 cents.

There has been so much confusion on the sugar situation that perhaps a little explanation may assist the public.

Before the war, Northern France, Germany, Austria and Russia produced from best more than half of the sugar of the world. As a result of the war, the sugar factories of Northern France have been destroyed, and will take three years to replace. Russia is still in a state of unrest, and has nothing to export, Germany, in consequence of the blockade, turned most of her beet fields to the production of other foodstuffs, and is short of proper fertilizers, and it will be several years before the beet land can be brought to produce what it did before the war, this through exhaustion of the soil, and owing to the large quantity of special fertilizers required Austria is in the same box as Germany. The net result, as a direct consequence of the war is, therefore, that the world production of sugar is only about 65 to 70 per cent. normal, while the consumption has increased, some say consequent upon prohibition, and others attribute it to other reasons. All land cannot produce sugar, and where the land is suitable for sugar, it has been found, even before the war, that better returns can be obtained by growing rubber as in the case of the Straits Settlements and Federated Malay States.

When we attend an auction, and there is one article which many people want, the price is bid up, and those who attend auctions think it nothing out of the way, and yet the sugar situation is just that. There is not enough sugar to go round, and there is keen competition to buy it—hence the price goes up.

Now as to the Chinese store, we, in B. C., never seem to know when we are well off. Owing to the price fixed by the Board of Commerce at 16 cents, based on doubt upon the contract made by the Rogers Refinery previous to price in the world going up. It was impossible to import sugar abroad without loss of some 3 to 4 cents per pound. On account of the scarcity, the wholesalers have had to cut everybody down, and in accordance with the usual practice of unfairness to the consumer, the Chinese stores have been kept very short. As sugar is a necessity, and the people must have it,

the Chinese stores were forced to import from Hongkong both for their own use and also on account of some orders placed by the local candy manufacturers, who can afford to pay more because they get from 50 cents to \$1 per pound for their products, the bulk of which is composed of sugar. We do not seem to complain when we pay that price for sugar in the form of candies, but when we buy it as sugar we must be in a hurry to procure it when we have to pay a little more, even though that little more still makes our price less than world prices.

I have obtained from the Chinese store the cost of his sugar, which is as follows: The shipment came in a couple of weeks ago, so that the price is a recent one.

First cost at Hongkong 154 cents per pound, including commission and shipping.

Exchange at 116 or 14 per cent. 2 1/2 cents per pound.

Freight and insurance one-half cent per pound.

Import duty 2 cents per pound.

Total cost, at the warehouse without handling charges, or profits, 203 cents per pound.

In getting her sugar at 20 cents therefore "householder" was getting it at three-quarter cents cheaper than can be brought in, and the Chinese store was selling at a loss of somewhat about 1 1/2 cents, as owing to rough handling, there is generally a shortage of, at least, 5 per cent.

When the Board of Commerce fixed the price at 16 cents, the people were benefiting to the extent of over 4 cents. It will be recalled that the price was raised by the Board of Commerce when recently the B. C. Refinery had a shipment in, and this was a subject of complaint to some one who thought that the Board was helping Rogers. It is not possible that Rogers was being limited to his profits, and the price was permitted to be raised because he was able to produce invoices to show that his raw material cost him more? We have been really getting the benefit of B. C. Refinery's forward purchases and get Rogers Premier Oliver's cable to Honolulu it seems to me that someone's legs are being pulled.

In a recent debate in the American Senate it was made that President Wilson by vetoing an arrangement to buy up the whole crop from Cuba had cost the American people over a hundred millions, and that the price now being paid for Cuban raw sugar was 10 to 12 cents. B. C. Refinery will have to be some kind of magician, or philanthropist, to be able to sell refined sugar at 8 cents, when the raw product is being bought at 10 to 12 cents, American Funds.

If the cost of living is high it is the direct consequence of our preferring to let prejudice have full sway during 1917, 1918 and 1919 instead of the practical common sense. If six million people had gone on strike for five years, we can all understand that the reduction in production resulting therefrom must have raised prices, and yet that is what has happened during the war. For every man taken away to fight we should have replaced by another one to keep up production, but we did not. We thought we could employ women, school boys and anything but the one thing that could have helped us. Today we are suffering from the consequences—higher prices, and the only solution is increased production, to catch up what was lost during the "Strike" of 60,000,000 people (taken away from production to fight).

I am writing this letter with the idea of pleading for a greater spirit of usefulness and tolerance, a greater sense of fairness, and a greater hesitancy in rushing to charges of profiteering without first finding out the facts and trying to understand the cause and effect. Most things always hold away, and no amount of Royal Commissions can materially reduce the cost of living so long as there is an insufficiency to catch up.

There are many men out of work, and we are crying for industries to give them employment. We should expect people to build factories here if we hold the opinion that these industries must not only give employment to our people, but they must exist only for our pleasure? We must remember that there are other countries in the world wanting to establish industries, and will give better treatment and fair play. We need to encourage industries and we cannot indulge in unfair attacks if we want them to come here and remain here.

AMERICAN COLONEL GIVES FREE ADVICE TO RHEUMATICS

SAY IT'S SHEER FOLLY FOR ANYONE TO SUFFER THESE DAYS.

Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength to fight off the disease.

Ferrozone cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism.

It is proved right here that Ferrozone does cure.

Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozone. Read his statement:

"I couldn't get around without a cane, and then only with difficulty. 'Rheumatism took complete control of my limbs.

"Suffering was more intense than hardships on the battlefield. 'When my doctor had done his best I got Ferrozone.

"Then came a quick change. 'Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

Be sensible about your case. If your present medicine is useless give it up.

Don't experiment again. Ferrozone is known to all who wish to be cured that does cure. Why not get a supply to-day. The sooner you begin Ferrozone the quicker you'll get well.

WOULD URGE BETTER PRESERVATION PLAN

Kenneth Duncan Believes Game Worth Protecting to the Limit

Legislative Press Gallery, March 2.

Confining his remarks more particularly to the game of Vancouver Island, Kenneth Duncan, soldier member for Cowichan, added his general approval to the measure now before the Legislature. While offering one or two minor criticisms, the Island member expressed the view that the proposed amendments to the existing Act were framed along the proper lines. He was of the opinion, however, that the value of game as an asset to the Province demanded a more comprehensive survey than that possible from the present policy of the policeman-game warden.

More Time Wanted.

For instance, said Mr. Duncan, the insistent violations of the Game Act, in spite of the excellent work carried out by the officials now entrusted with its active enforcement, made it advisable at times for the Provincial Constable to absent himself from his central point of authority in order that he might devote appropriate attention to any district in which game law infractions were being committed more or less upon a wholesale scale. Under the old plan of a separate force of game wardens this should have been possible, he commented, although he was convinced that in the selection of the old officials sufficient attention was not paid to the choice of the men. He advocated, therefore, in the interest of the game of the Province, the substitution of a policy more nearly in harmony with that obtaining in other Provinces where men were employed who were well versed in the habits of game and who could by their intimate knowledge of their subject, give the maximum of service.

Farmer and Pheasants.

Mr. Duncan asked the House to consider the position of the farmer who found that his crops suffered to a considerable extent through the depredations of the pheasant. It was a matter of common knowledge, he said, that these birds invariably inhabited the cultivated fields and depended upon an almost identical menu to that of the barnyard fowl. In some cases, he continued, the farmer devotee of the gun had very little objection to the damage caused to his crops for the simple reason that he was recompensed during the hunting season and virtually "got his own back." But in the case of the farmer who took no interest in game and to whom the hunting season brought no return, it was a different matter, observed the Cowichan member. Therefore, to cater for this latter class he urged the inclusion in the bill of some provision whereby compensation might be forthcoming in respect of the losses entailed.

The Dog and His Master.

For that clause in the bill designed to protect the deer from attacks by harem dogs Mr. Duncan had nothing but praise. At the same time he pointed to the difficulty surrounding the lonely settler, or bachelor settler, who invariably went abroad at all times in company with his canine companion. Conceivably, said he, a hardship might be worked in cases of this nature were the animal to be summarily destroyed for the unwitting default of his master.

Information Channels.

The formation of the Game Conservation Board in Mr. Duncan's opinion was a progressive movement; but there again the Cowichan member believed that this body would be in a position to give effect to its organization were the channels of information to be more fruitful. He referred to the need of larger and, perhaps, a more intelligent force of field men whose duty it should be to study wild life in every section of the Province scientifically and report its findings for the benefit of the Board.

The speaker was glad to note the growing number of Game associations which proved conclusively to him that interest in game preservation generally was increasing. Mr. Duncan extended congratulations to the Attorney-General for the enterprise demonstrated in the matter of making furs revenue producing. Hugh Stewart, Liberal Member for Comox, continued the debate on the motion for second reading.

LIBRARY LAW

Bill Introduced to Regulate Removal of Volumes From Provincial Library.

Legislative Press Gallery, March 2.

An Act to amend the Legislative Library and Bureau of Statistics Act was introduced this afternoon by the Hon. J. D. MacLean, Minister of Education and Provincial Secretary, and given its first reading. The Act is amended so as to provide for the temporary removal from

ADVERTISE IN THE TIMES

BRIEF LOCALS

Fireman's Funds.—The fireman's funds have been again augmented by the donation of \$20 from G. G. Bushby, as a recognition of a run to his premises at 1005 St. Charles Street at 10.30 on Monday morning.

Rotary Club.—Ten-minute talks on a number of interesting topics will be delivered at the weekly Rotary Club luncheon on Thursday. The Club is engaged chiefly at present in preparing for the big Rotary convention which will be held here in April. A full list of the committees in charge of the plans is published in this week's Rotary Bulletin.

To Call For Nominations.—The Women's Auxiliary to the G. W. V. A. will hold their postponed meeting at the Orange Hall on Thursday evening at 7.30. Nominations for office for the ensuing year will be called for, and it is hoped that there will be good attendance of members. Those unable to attend are asked to forward their nominations by post.

Endorse Eight Hour Day.—The bill in the House sponsored by Major R. J. Burde, M. P. P., calling for an eight hour day in the sawmill industry last night received the endorsement of the Metal Trades Council. A vote is to be taken to ascertain if the people of British Columbia endorse the labor condition as outlined by the Canadian Delegates to the International Labor Conference held in Washington, D. C.

Robert Valentine Harvey Chapter.—The regular monthly meeting of the Robert Valentine Harvey Chapter was held last evening in the I. O. D. E. rooms. Mrs. C. E. Stewart was elected second vice-regent and one new member, Mrs. Frank Bowser, of Vancouver, was proposed. The next meeting will be held on Tuesday, March 30 instead of April 6, when an address will be given by Mrs. Alfred Watt on "The Dawn of Empire in Rural England." A cordial invitation is extended to all members of the I.O.D.E.

Customs Returns.—The February returns of the custom dues taken at this port are proving interesting from the comparative point of view. Last month \$102,246.72 was collected here, showing an increase of some 33 per cent. over the same period in last year. During a similar period in 1918 when like conditions pertained to the importation of liquor, the customs returns were almost identical with February of this year, being \$112,755.22.

Saw Game Pictures.—Some of the members of the Provincial Legislature yesterday afternoon were treated to an exhibition of a remarkable series of game and animal life pictures at a private show at the Royal Victoria Theatre. The pictures were prepared by the Game Conservation Board of this province, and are said to be the finest on record in that particular line. Dr. Baker, Chairman of the Board, acted as lecturer and gave an interesting resume of the work necessary in securing the views.

Will Speak Here Next Week.—A lecture, to which the public are invited, will be given before the Victoria Branch of the Engineering Institute of Canada on March 10 by Professor E. G. Matheson, on Sub-Aqueous Tunneling. The lecture will be given in the Provincial Library, entrance from Superior Street, and will commence at 8.30 p. m. The lecturer is professor of civil engineering at the University of British Columbia, and the paper will be read under the auspices of the extension work of that institution, by kind permission of Dr. Clark. The public meeting will be preceded by a short business meeting of the branch, to commence at 7.45 p. m. Professor Matheson's address will be illustrated by lantern slides.

PIONEER PASSES

Robert Law Helped to Build Reformed Episcopal Church Here.

The death occurred yesterday at Kamloops of Robert Law, one of the pioneers of Victoria, who came to this city with his family forty-five years ago. Mr. Law was employed when he first arrived with Spratt's machine works, and also worked on those who worked on the building of the present Reformed Episcopal Church, Humboldt Street. After living here four years he started the first foundry and iron works on the Mainland on Front Street, New Westminster and sold out there some years ago.

Although eighty-seven years of age Mr. Law was strong and hearty to the last, and recently traveled alone through the United States and Canada. He leaves one son, Robert K. Law, of Walla Walla, and a daughter, Mrs. H. J. Johnson, of Oak Bay.

Mr. Walters Explains.
This remark somewhat nettled Mr. Walters, who asked leave to explain the circumstances in connection with his acquisition of the property in question. He said that the original staker of the coal lands secured them in 1901, and that in 1904 Crown Grants were issued. No taxes were ever paid, nor was any improvement work done. This was contrary, he said, to the statement of the Leader of the Opposition to the effect that some \$16,000 had been spent. Mr. Walters said he had feared that the order-in-council placing a reserve on coal lands would "shut him out" and he had hastened to Victoria to investigate. Further, he said, he wished to inform the House that "those people represented by Bowser, Reid and Wallbridge had every opportunity to improve their property and take advantage of its possession."

Called to Order.
Mr. Speaker Keen hereupon called Mr. Bowser to order and asked him to keep within the four corners of the bill under discussion. Mr. Bowser heatedly said this was what he was doing. He maintained he was discussing the principle of the bill and resented the Speaker's calling him to task.

MINERAL ACTS UNDER FIRE FROM OPPOSITION LEADER

Mr. Bowser Terms Power to Reserve Iron Ores Retrograde

WOULD HAVE SCHOOLS FOR PROSPECTORS

Legislative Press Gallery

March 2. Declaring that the opposition members of the Legislature would vote against Hon. William Sloan's bill to amend the Mineral Act, W. J. Bowser, K. Leader of the Opposition, held forth for forty-five minutes this afternoon upon what he maintained were the glaring injustices proposed under the amendments. "If have been brought down that would mean the opening up of our mineral wealth," he said, in commencing his speech, "but so far there has been nothing. During my travels over the country I have endeavored to ascertain the best methods that could be adopted for the getting back once more of the time prospectors, but that important pioneer is of the past."

Encourage the Prospector.
Mr. Bowser went on to say that the argonauts who opened up the Kootenay, Skeena, Cariboo and other mining districts were the type now required to continue the mineral development of British Columbia. He claimed there was not one prospector now for every ten or twenty of the old days. "So it appears to me that something should be done by this Government to encourage the prospector," he added, and pointed to the inducements offered the mining men in Australia. In that country it was the practice, he said, to offer additional claims where discoveries were made. Perhaps conditions in this Province were not so favorable, but at least there should be training schools provided, he maintained.

The Opposition Leader favored the establishment of training schools at Nelson, on the Lower Mainland and perhaps at two points on Vancouver Island. These could be night schools, he said, and the students would be paid out, but in the schools provision could be made for the training of future prospectors and mining men.

Bowser Versus Sloan.
Mr. Sloan at this juncture pointed out that the subject was drifting from his subject, that of placing a reserve upon iron ore properties. Mr. Bowser said he was leading up to that topic and expressed the hope that the Minister of Mines would be intelligent enough to grasp his arguments when they were presented. "The bill is inconsistent," continued the Opposition Leader, "in that it places reserves upon iron ore deposits all over the Province, making it necessary for the prospector or the development agent to approach the Minister before securing a mining concession." Mr. Sloan said this was not the case, the bill merely providing for the right to place reserves where it was thought desirable to place them so to do. Mr. Bowser asserted there was no limitation provided by the proposed amendment.

Freedom for Prospector.
The Leader of the Opposition expounded his doctrine of freedom for the prospector, and said he did not think it wise for the Government to blanket the entire country with reserves, waiting for the time when some valuable discovery would be made. He maintained that preference was thus being shown those already owning coal and iron ore lands, in that properties already controlled would be protected, while since no others could be easily secured. He here referred to questions recently appearing upon the order paper dealing with coal areas, in extent 3,200 acres, which had reverted to the crown and which were later secured by Joseph Walters, Liberal member for Yale. The speaker appeared to question the method by which the Yale member had secured these coal leases, whereupon that gentleman rose and asked if wrong motives were being imputed. The answer was in the negative, and the Leader of the Opposition went on to say that apparently the member for Yale knew when to "get in."

Mr. Walters Explains.
This remark somewhat nettled Mr. Walters, who asked leave to explain the circumstances in connection with his acquisition of the property in question. He said that the original staker of the coal lands secured them in 1901, and that in 1904 Crown Grants were issued. No taxes were ever paid, nor was any improvement work done. This was contrary, he said, to the statement of the Leader of the Opposition to the effect that some \$16,000 had been spent. Mr. Walters said he had feared that the order-in-council placing a reserve on coal lands would "shut him out" and he had hastened to Victoria to investigate. Further, he said, he wished to inform the House that "those people represented by Bowser, Reid and Wallbridge had every opportunity to improve their property and take advantage of its possession."

Called to Order.
Mr. Speaker Keen hereupon called Mr. Bowser to order and asked him to keep within the four corners of the bill under discussion. Mr. Bowser heatedly said this was what he was doing. He maintained he was discussing the principle of the bill and resented the Speaker's calling him to task.

AERIAL LEAGUE EXECUTIVE HERE

Local Aviators May Join Aero Club of Canada; Provincial Offices Moved Here

The provincial executive of the Aerial League of Canada held the first session of the year in the offices of the local branch yesterday. The four branches of the league were represented, being Vancouver, Chilliwack, New Westminster and Victoria. The Vernon branch is in process of formation, but did not send a delegate. The main business of the executive was to discuss the question of affiliation with the Aero Club of Canada, and it was decided that such a move would be of the utmost benefit to both contracting parties. The Aerial League has the sole record for civilian flying in Canada for the period of last year, and has collected data of the utmost use to all interested in aviation in this Province. The provincial headquarters of the League has been moved from Vancouver to this city, the Mainland members themselves bringing the suggestion forward. It was stated that the local office was in complete touch with the Dominion and Provincial authorities, and had by a consistently resolute effort, created a record for safe flying in this Province. Messrs. Brown, Cameron and Gray represented the local branch, while Mr. Fieldhouse represented the branches of Chilliwack and New Westminster. Mr. Fieldhouse, it will be remembered, was the first to give an exhibition of "aerobatics" here, and created considerable excitement in so doing.

TIRES JUMP BACK TO JUNE QUOTATIONS

General Increase Is Fifteen Per Cent., But Ford-size Buyers Will Pay More

Automobile tire prices jumped in price suddenly yesterday afternoon. The general increase is fifteen per cent. But owners of cars taking Ford-size tires will have to bear an increase of twenty per cent. "This is one time where the man who buys a small car to escape big costs is caught and the advantage given to the much more heavily burdened owner of the big car," said one garage man to-day. "It is only fair that buyers of the more widely used small tires should provide the greater part of the profit for the manufacturers and the buyer of the big tires should be relieved of this as much as possible." A tire man explained to-day that the increase only brings tires up to what they were before the cut in prices was made last June. Manufacturers then reduced their prices, because with the war over they thought that everything would fall. But they have since learned they were mistaken. Wages have steadily mounted higher and higher and so men cotton which form the chief part of the structure of the tire.

HELP FOR MOTHER

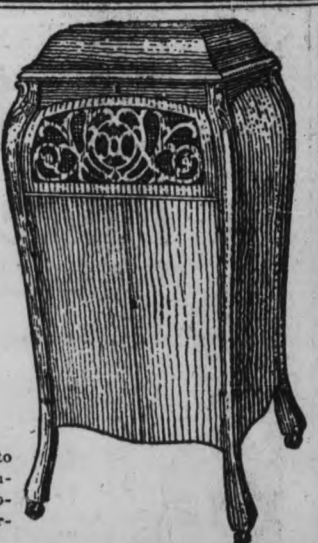

A mother whose strength is overwrought or who is thin, pale or nervous, should find renewed energy in every drop of **SCOTT'S EMULSION**

Let it help turn your daily tasks from burden to pleasure. **Scott's Emulsion** is abundant in those nourishing elements that every mother in the land needs.

SCOTT'S EMULSION
ALBERNI MEMBER

Legislative Press Gallery, March 2. For a few minutes in the Legislature this afternoon Major R. J. Burde, soldier member for Alberni, endeavored to the best of his ability to convince the Speaker that he would not object to being removed from the chamber on the shoulders of the Sergeant-at-Arms. He made it clear to the House that forcible ejection would "compensate him for any measure he might employ in bringing the Leader of the Opposition to his feet in de-

BROWN AND JACKSON SOCCER CUP DRAWS

Battle For Right to Play For McBride Shield Starts March 13

Next Saturday's soccer games in the Brown Cup series will be played as follows: Wards vs. Wests at Central Park, referee Lock. Knights of Columbus vs. Foundations at Beacon Hill, lower grounds, referee Langton. Yarrows vs. Metropolis at Beacon Hill, upper grounds, referee Oakwell. Army and Navy vs. Harbor Marine at the Willows, referee Pearson. The first round of the Jackson Cup is to be played Saturday, March 13. This competition is on the knockout system and will decide which Victoria team is eligible to play for the McBride Shield and the provincial soccer championship. Nine teams entered for the Jackson Cup, the Army and Navy Veterans not sending in any entry, and it was decided to play a preliminary elimination round this Saturday, and start even with eight teams in the running next week. The teams drawn from the hat to play this preliminary round are the Comrades and the Great War Veterans, and these two elevens will play this coming Saturday at the Royal Athletic Park with Referee Dougan in charge of the game.

Jackson Cup Games.

The draw for the first round of the Jackson Cup, to be played off on March 13, is as follows: Harbor Marine vs. Wards. Metropolis vs. K. of C. Hut. Yarrows vs. Comrades or G. W. V. A. Foundation vs. Wests. Grounds and referees for these games will be announced later. The football officials wish players to notice that any player who has once played for any club this season in either a Jackson or Brown Cup game is not eligible to play for any other club in either of these competitions, except in the case of his club having entered for only one of the two competitions, in which case he can play for any other club in the competition for which his original club did not enter.

RECORD ATTENDANCE AT BOXING LESSONS

Forty Youngsters at Victoria West Gymnasium Last Evening

A record attendance at the free boxing lessons at the Victoria West gymnasium was made last night. Over forty youngsters were present, and Dave Grubb, Ted Beale, Harry Boyd and W. H. Davies, acting as instructors, had a busy hour and a half. So great have the numbers been since the classes were resumed that some of the advanced pupils have had to be matched together for their workouts. Many of the young students are ambitious for a public appearance, although pupils who wish to learn the art for their own satisfaction are not asked to exhibit their talents before the eyes of the critics. A tournament in which some of the most expert pupils will appear will probably be staged in the near future.

SAW TIMES SPORT PAGE IN NORFOLK, VIRGINIA

Charlie Martin, the shifter 1552 pounder who was a regular performer at Victoria boxing tournaments during the time he made Victoria his home and who also steps out at any show that happens to be on during his periodical visits to the city was recently at Norfolk, Virginia. While in the U.S. city Charlie happened to pick up a sport page of a copy of the Victoria Daily Times published in 1915. Martin cut out a picture which showed Stoker Yates and Al Davies squaring up before the beginning of a sensational bout they fought that year at the old Victoria Theatre.

BOXERS WANTED FOR SMOKER AT CASSIDY

Several Victoria boxers are wanted for a smoker to be held at Cassidy March 20. A request has been received by W. H. Davies to take up some local ringman to help provide the entertainment.

SPORTING NEWS

THE VICTORIA GRASS HOCKEY CLUB

G. C. Grant, E. E. Quainton, D. M. Grant, B. Beckton, Musgrave, Winsby, G. C. Elder, P. Fletcher, hon. secretary; A. W. Idiens (captain), Dean Quainton (president), J. G. Stanier (vice-captain), Boucher, treasurer.

A team of five ladies and six men from Salt Spring Island, playing as the Admiral Island eleven, will meet a Victoria mixed team in Victoria Saturday. The game will be played on the University ground, bully off 2.30.

AROUND THE SPORT CAMPS

Jacklin had a cracked elbow, Dudley had rheumatism in the thigh and Guy Patrick had been suffering from influenza just before Monday's amateur game, so the Vets have every reason to be proud of the fight they put up against the Senators.

Harold Bray, their coach who left an arm the other side of the pond, was just as delighted with the game they put up as if they had grasped the laurel leaves.

There is a feast of special puck-chasing attractions yet although the original schedule is finished. The Elks and Senators have yet to fight it out, the battle for provincial honors will soon be on and a picked Victoria team will play the Winnipeg Selkirks.

Jack Neary is proud of the success of his lads who have the city soccer championship tucked under

their belt and believes it will be necessary to have a glass case made for the trophies they will win before the curtain is called on soccer.

Yet Jack hasn't handed down the fame to posterity by photographing his champs yet.

Any of the three teams can do pretty nearly anything in the pro hockey race from tying up the league to winning it before the card closes. But if the Victoria boys should win to-night it would give a lot of satisfaction.

Although Victoria may yet enter the Pacific International Professional Baseball League the scribes who have them already lined up appear to be a bit premature.

Some definite announcement, however, should be made before the week is over.

Hockey Rugby Billiards Boxing

CADDOCK AND LEWIS PUT OPPONENTS DOWN

Took "Strangler" Over Two Hours to Beat Greek Champion

New York, March 3.—Earl Caddock, of Anita, Iowa, former heavy-weight wrestling champion, threw Salvatore Chevalier, the French expert, with a head scissors and arm lock in 58 minutes and 11 seconds at Madison Square Garden here last night.

The contest preceded a match between "Strangler" Lewis and Jim London.

Chevalier weighed 200 pounds, 14 more than his opponent. The Frenchman was the aggressor during the greater part of the first half hour. He was in difficulty twice later, but each time his defeat was delayed when the men went off the mat and, under agreement, assumed erect positions.

Ed "Strangler" Lewis threw Jim London, the Greek champion, with a headlock in two hours four minutes and 43 seconds. Lewis weighed 220 pounds, an advantage of 27 pounds. London more than made up this handicap with surprising strength and agility. Lewis went through the ropes four times onto the reporters' table and frequently bounded against the ropes in escaping his opponent's attack.

The Greek succeeded in breaking a half-dozen of the headlock holds but succumbed to the seventh. After the men had wrestled one hour the American got a firm headlock to which London countered with a head scissors. This extraordinary combination lasted fully three minutes before both men broke loose. London looked the fresher of the two when he wriggled out of another of Lewis' famous holds after three minutes and 40 seconds.

WINNIPEG SKATER BEATS LARGE FIELD

Outskates Classy Field of U.S. Speed Artists in Quarter and Half Mile

Winnipeg, March 3.—Wearing the colors of the Falcon Hockey Club, Mike Goodman, of Winnipeg, the celebrated skater and hockey player, carried them to victory in the Canadian skating championships here last night when he landed the honors with a well-deserved 90 points. Goodman outskated a classy field of American speed experts in the quarter and a half-mile, took second in the two-mile, and third in the three-mile and was just nosed out of a place in the five-mile in a blanket finish between four skaters. Charles Jewtray, of Lake Placid, N. Y., chased the Icelandic skater all the way but did not manage to win the race, but secured enough seconds and thirds to pull down 80 points for second place in the finals. L. Moore, of Lake Placid, had the speed and endurance to win both the three and five-mile events after two fast finishes. J. Stowell, of Aurora, Ill., sneaked in ahead in the three-mile by virtue of taking a long lead which his opponents under-estimated.

GLASGOW RANGERS MAY PAY VISIT IN PLACE OF NEWCASTLE

As recently stated in The Times, an announcement from Newcastle, before the arrival of Con Jones in England, was made to the effect that the United team would not pay a visit to Canada. The Toronto Telegram learns that negotiations are now being conducted with the Glasgow Rangers. If this leading Scottish club turns down the proposal, it is said that Celtic or Aston Villa will be approached.

Toronto, March 3.—Tom Watson in The Evening Telegram to-day says: "There are murmurings over Canada at the guarantee asked by the D. F. A. in connection with a visit from Newcastle United. I hear that word of this has reached Newcastle and it is not improbable that the famous team may be cried off." E. Spencer, secretary of the Dominion Football Association, when asked what weight was to be attached to the above statement, said it rested on the fact that no official acceptance had been received from Newcastle United. It is practically certain, however, he said, that either Newcastle or some other famous Old Country soccer team will make the Canadian tour.

SCHOOL BASKETBALL

The First Presbyterians will meet the Crusaders to-night in the Sunday School Basketball League. The Presbyterian five can climb up to second place if they can halt the speedy Crusader team. Both teams will be out in full strength, and a speedy game is expected. To-night's schedule at the Y. M. C. A. is as follows:

Intermediates. 8 p. m.—St. Andrews vs. On-Wes. G. O's.

Seniors. 8.45 p. m.—St. Marys vs. Veterans. 9.30 p. m.—Crusaders vs. First Presbyterians.

Ladies' League. The two following games will be played to-night at the First Presbyterian gymnasium:

7.30 p. m.—Pilgrims vs. First Presbyterian "B."

8.15 p. m.—St. Andrews vs. Metropolitanians.

The ladies' games to-night should both prove interesting and closely contested.

500 A MONTH

You couldn't wish for easier terms of payment—certainly you will not find a better quality bicycle than the Canadian-made "Perfect" at anything like an equal price—sixty-five dollars. SPORTS

Inter-city Soccer League Card Will Mean Start of Summer Soccer Games

Three Island Teams and Two Mainland Elevens Will Take Part in Competition.

The large attendance at last Saturday's inter-city soccer game is regarded as a good criterion by the officials of the British Columbia Football Association for the success of the inter-city soccer league. The attendance at the Victoria game was greater than the attendance on the Mainland in the previous inter-city soccer game and beat any attendance at a soccer game in Victoria for years past.

Arthur Manson announced this morning that it is expected that the new league will open about the middle of May. Although the schedule has not been drawn up as yet, it is expected that it will be drawn up as early as possible. There will be two Vancouver teams in the competition, one of which probably will play a North Vancouver team. A Victoria and Esquimalt team will

enter the fray from this section. One up-island team is assured. There may be one more entry from the up-island men before the card is finally drawn up and the opinion is expressed that the enthusiasm shown for the game in that district should make it possible for two strong teams to be fielded. Another entry would make it possible for a game in each district to be played each week whereas in the event of only five entries being received it would be necessary for one club to lay off each week.

The teams will be managed by the B.C.F.A. executive in each city. The opening games will be played the middle of May and the card will probably run to the end of June. The new series should have the men in the best of shape for another big soccer feature which is down before the season closes—the visit of the Stanford University soccer eleven. An effort is being made to have the university boys here for a May 24th attraction, but they may not be able to make the trip until June.

Semi-ready Tailoring is perfect fitting

"Montcalm" A new Top Coat

AN OVERCOAT for Spring or Fall wear is necessary in our changing climate.

Where many men still cling to the old-time tailoring methods they will accept the dominant fact that Semi-ready Tailoring means a finer fitting overcoat at a saving in price.

The perfect shoulder-fitting and artistic draping of the new form-fitting coats make them attractive.

We have many other styles in Spring Top Coats—all with the value in the pocket—the same price West as East—"Semi-ready" of course.

SHOWERS BOUQUETS ON LOCAL MANAGER

Big Lester Outstanding Figure in Coast Hockey, Says Seattle Writer

Royal Brougham, in The Seattle Post-Intelligencer, showers roses on the Victoria manager for the way he has stepped into uniform again, staided up his team and put them on the path of victory again. Says Brougham:

"The long, lean form of Lester Patrick, leader of the Victoria Aristocrats, looms on the hockey horizon. Considered a dead one in the 1920 puck scramble, the veteran Victoria pilot and his pals are right at the heels of the slipping Mets and threatening to nose Seattle out of the finals.

A week ago nobody would have predicted that the champions of last year would lose two straight games and drop their hold on first place. And yet that is just what happened.

A Great Leader.
Big Lester right now is the outstanding figure in Coast Hockey. A week ago the fans read of Patrick's spectacular entry into the Vancouver contest, when, with his team behind nine goals to one, Lester threw off his blanket and climbed over the fence. Waving his long stick in the air like a Spartan of old, Patrick put new fight into the tired Victorians, taking the ice and in the eight minutes left to play his club rushed three goals through the Vancouver defense.

Friday night Patrick rushed into the fray with his team a goal behind, and his appearance revolutionized the Victoria play and won from Seattle.

Not the Same Player.
The elder of the Patrick brothers old-time fans tell us, is far from being the hockey star of a decade ago when the Patricks were regarded as two of the world's greatest players. But Lester's leadership not his ability to skate and score and check, may yet play an important part in the hockey race and bring the Victorians to a place in the Championship finals. —P-I.

REED SAVED HIMSELF WITH STRONG FINISH

Chet McIntyre's Man Roughed The Wild Man Considerably at One Stage

Seattle, March 3.—Bill Reed fought himself into a match with Bevo Krivosky, the most talked-of heavyweight on the coast, when he crossed his right hand to Oscar Koch's jaw a half dozen times in succession in the final round of last night's main event at the Crystal Pool, and earned a draw.

Up to the last round the 220-pounder of McIntyre's was roughing up Wild William considerably, and would have been given the call but for the strong finish of the South-

east. Reed was matched to box Krivosky next Tuesday night at the veterans' show.

Harry Anderson and Mike Pete served up a very interesting contest. The heavy punching of Pete and the clever boxing of Anderson combined to make it a good scrap, with Pete having the edge. Harry handed himself in old time form, and at times dazzled the Wilkeson mixer with his left jab. It was a draw.

Joe Farrell celebrated his return to the local game by winning a clean-cut decision over Earl Connors, of Tacoma. Farrell carried too many guns for the veteran, and punished him severely.

Soldier Woods, the cave man fighter, caught a Tartar at Red Gage. Woods can beat anybody who slugs with him, but Gage elected to box to-night, and Red carried away the decision by his ability to make the oncoming soldier miss. This was a whiff of a go.

Boy McCaslin put Young Taro away in the first round of the preliminary.

VICTORIA GOLFERS PLAY IN SEATTLE TOURNAMENT

Seattle, March 3.—Biggerstaffe Wilson, the popular Victoria player, stopped in Seattle on his way back home from a several months' visit in California last week and he was feeling pretty good over the success of the British Columbia golfers in the preceding week-end play at Del Monte.

Gross honors—the big honors, of course—were won by Wilson with rounds of 79 and 81. J. A. Lindsay, of Victoria, won the handicap trophy with a card of 172-30-142. Just after Mr. Wilson left for home, Mack Rickett, of Victoria, won the last net trophy in the Washington Birthday tournament with a 79.

Another Pacific Northwest player also proved a trophy-winner during the week-end play at Del Monte. Miss Lillian Howarth, of Everett, in Saturday and Sunday medal rounds, obtained the best gross score of the women, 210 for the 36 holes.

KOKSILAH GOLF CLUB RE-ELECTS OFFICERS

Duncan, B.C., March 3.—At the annual general meeting of the Golf Club of Koksilah Mr. K. F. Duncan, M. P. P. was re-elected hon. president; Mr. C. H. Dickie, president; Mr. H. E. Prevost, captain; Mr. W. E. Powell, secretary-treasurer, and Mr. G. O. Day, auditor, all re-elected. The following committees were struck: General Committee: Messrs. E. W. Carr-Hilton, Dr. D. E. Kerr, J. Hutchinson, F. H. Price and C. C. Ward. Green and Handicapping Committee: Messrs. J. S. Robinson, E. W. Carr-Hilton and C. C. Ward. It was decided that the selection of the ladies' committees should be left in their own hands.

The secretary reported an increase of 22 new members during the past year, the total membership now standing at 69, and the financial condition was most encouraging.

BALK LINE BILLIARDS COMES TO TERMS.

Detroit, Mich., March 3.—Chick Shorten, outfielder, who had been classed as a holdout, came to terms with President Navin yesterday, and will leave immediately for the Tiger training camp at Macon, Ga.

Blonde Beauty May Turn Georges From Primrose Path of Ring Champ

Toronto, March 3.—The Globe to-day has the following special cable from Paris: "Georges Carpentier, Europe's heavyweight boxing champion, will be married on March 13, it was announced to-day. The prospective bride is a seventeen-year-old blonde beauty, whose identity, however, is kept a profound secret.

"It is said she is not a society girl but hails from the country. "Immediately after the marriage the couple will sail for America on their honeymoon. There is an unconfirmed report that Carpentier has decided to give up the ring forever owing to the positive aversion of his bride-to-be to his taking part in professional bouts.

"He is said to intend going into the 'movies' on a large scale.

Paris, March 3.—Georges Carpentier, heavyweight pugilist champion of Europe, and Mademoiselle Georgette Elasse will be married next Monday, according to announcement here to-day.

HARD TO RAISE COIN FOR OLYMPIC STARS

Each Province in Canada Is Asked to Unearth \$3,000

The expense of sending competitors to the Olympic games is liable to prove a big barrier in the way of sending bidders for the world's greatest athletic honors from Canada. Three thousand dollars is the quota that each Province in Canada is asked to raise and as in other Provinces British Columbia will seek assistance from the Provincial Government in raising the necessary amount.

The same example as the United States has set will undoubtedly be followed in the case of Canada. On account of the expense of the trip to Belgium the U.S. team will be trimmed to the core. No representative will be taken along unless the experts decide that he has a first rate chance of getting a place. B.C. Trials.

The B.C. ringmen and wrestlers are the first to get busy on elimination trials so as to have their men ready for Dominion elimination trials when they are held. On the Mainland,

wrestling and boxing bouts to select the stars are to be held to-night. The winners will meet the pick of the Island.

FINAL AMENDMENTS TO NEW YORK FIGHT BILL

Albany, N.Y., March 3.—Final amendments to the Walker, Bill legalizing boxing exhibitions in New York State, will be introduced to-day as a result of the conference between Democratic leaders and Senator James J. Walker.

While the bill in its completed form will permit 15-round bouts, it will give the boxing commission power to have shorter bouts for the minor divisions. No boxing matches will be permitted on Sunday and five-ounce gloves will be required for the boxers up to the lightweight division and six-ounce gloves for the heavyweights.

SIGHTLESS FOOTBALL PLAYERS

At the Birmingham Royal Institution for the Blind at Edgbaston a football match was played by picked sides of youths, who though totally blind were able to enjoy an interesting game.

They play with a ball which has tin discs attached to the lacing, which keep up a continual noise, and they are thus able to keep in touch with the ball by their keen sense of hearing. Never do the boys lose the sense of direction by making the mistake of kicking the ball towards their own goal.

TO REQUEST COAST HOCKEY CHAMPIONS TO SPEED UP VISIT

Ottawa, March 3.—Following a meeting last night officers and players of the Ottawa hockey club announced that in the event of Ottawa clinching the National League championship to-night by defeating Toronto, the management would immediately get in touch with William Foran, Stanley Cup trustee, with a view to making arrangements for the Stanley Cup series against the Pacific Coast champions, Vancouver, of Seattle. While the Ottawa do not wish to count their chickens before they are hatched, they realize that time is short and none can be lost if the games are to take place.

It was unanimously decided to request President Patrick of the Pacific Coast League to send his champions East at the earliest possible date.

WINNIPEG BEAT U. S. TEAM.

Cleveland, Ohio, March 3.—In a game of hockey here last night the Monarchs of Winnipeg defeated the Cleveland team 2 to 1.

The usual practice of the Foundation Soccer Club will be held at 7.30 to-night.

LINCOLNSHIRE BETTING.

London, March 3.—Lincolnshire betting yesterday was as follows: Brigg Bridge, 100 to 12; Monteth, 10 to 1; Paragon, 100 to 3; Sir Berkeley, 100 to 8; Royal Bueks, 100 to 7; Ugly Duckling, Milton Furious, Scotwell, 20 to 1; Golden Fleec, 25 to 1; Homefire, 100 to 3; Flower Bed, 40 to 1.

Grand National betting is: Poethlyn, 7 to 1; Torvon Bally Boggan, 10 to 1; Buzzard, 100 to 7.

ABBOTT CUP SERIES.

Calgary, Alta., March 3.—Calgary Monarchs, junior champions of Alberta, left yesterday for Regina, where they will play Selkirk Wednesday and Friday in the final of the Abbott Memorial Cup series for the championship of Western Canada.

MADE HIM FEEL SMALL.

A foppish young man who could only find a seat next to a fishwife, in a North of Scotland smoking carriage, expressed his disgust by many disdainful glances. At length the woman remarked:

"I'll bet ye, my manny, you an' me's bath thinking the same thing." "What is that, woman?" demanded the youth haughtily. "You are wishing you was sitting next to a gentleman?" "I am, indeed," replied the young man. "So am I," the fishwife replied calmly.

THE PLAY THAT TOOK LONDON BY STORM

At the Princess Theatre next Saturday evening at 8.30 and every evening the following week (excepting Monday).
Box Office now open. Book your seats early.
You remember "The Luck of the Navy" and Mr. Percy Hutchinson who starred in it, well that gentleman is the owner of the English rights of "Officer 666."
"Officer 666" combines both drama and comedy—a combination that suits EVERYBODY.
For a play that is "different," a play that keeps you wondering as to "what's going to happen next," a play to make you laugh at one time and change that expression at another, "Officer 666" is the play you will all enjoy.
See news item in to-night's Times.

PRINCESS

Good, clean shows are what the public like, in fact, they are what the present-day public are demanding.
Unfortunately, since the inroad of the "movies" the "legitimate" has been shelved more or less, but circumstances are changing. People are growing tired of the lifeless ideals of the screen, and are ready to extend the "heartly shake" to heroes and heroines of flesh and blood.
Everything being equal, a good play will always take. Serve that play up in first class style, and the public will come and come again.

"Officer 666" is the one chosen by Mr. Hincks for next Saturday night's production. "The past month or so has been a strenuous time for the people," says Mr. Hincks, and I'm going to give them something that will cure the blues.
There are more genuine hits in "Officer 666" than are contained in quite a number of modern plays, and what particularly stamps this one as a headliner is the fact that the audience is kept in a state of guessing, at "just what is going to happen next."
The cast Mr. Hincks has chosen is composed of Princess veterans. He has tried them out time and time again in various roles, consequently he is making no experiment in calling upon them to interpret this produc-

B. C. MOTOR TAXES TO BE INCREASED TO BUILD ROADS

Hon. Dr. King Announces Legislation For Much Higher Fees

GOOD ROADS MEN SAY ALL MOTORISTS IN FAVOR

Motor licence fees in British Columbia are to be substantially increased by legislation at this session of the Legislature, the Hon. Dr. J. H. King, Minister of Public Works, announced at last night's session of the convention of the Good Roads League of British Columbia at the Empress Hotel.

The possibility of ear-marking receipts from motor taxation for road work is also being considered by the Government, he added.
The Minister's announcement was supported by all delegates who spoke.
"If the Government were to double the motor tax to be applied absolutely to highways, motorists would be willing to pay it," said W. A. McKenzie, M. P. P., of Port Moody, the first president of the Good Roads League. "I think it would be a good thing for the Government to take up without delay the doubling of the motor tax in order to pay for the good roads that are proposed. When people demand things from the Government they must be prepared to pay for them."

Motor Licences Passing.
Mr. McKenzie advocated the Government operating its own sawmill, so that timbers for bridges could be produced at a lower cost.
"Automobile licences will never be less than they are to-day," said J. W. West, M. P. P., of South Vancouver. "And the demands for good roads were never greater than they are to-day. To-day there are about 23,000 automobiles in the Province, paying licences of \$10 each, and the light cars pay as much as the heavy trucks that do so much damage to the roads."
Mr. West advocated heavy trucks being taxed \$100 a year.
Proposes \$5,000,000 For Roads.
He also urged that the present licence receipts and the proposed increase be hypothecated for the \$5,000,000 bond issue for fifteen years for good roads. This would provide 300 miles of hard surface roadways. This would be good business for the Province, as it would stimulate development. He predicted that before the roads are finished the number of motor cars would be doubled.
"If the suggestion is logical why not put it through now," he asked. "Let us enjoy the benefits of good roads before we are gray-headed. The licences on cars should be graded according to the weight and price of car."
Says Motorists Favors Increase.
Alderman A. E. Todd, of Victoria, declared that the automobile public is almost unanimously in favor of an increase in motor car licences, provided the receipts are allocated to good roads.
"The trend of developments has resulted in the average farmer using motors, and that has made him realize the value from an economical standpoint of better roads to travel on," said the Hon. E. D. Barrow, Minister of Agriculture. "Therefore, not only the city men, but the big agricultural community is ready to go hand in hand to help improve the good roads of the Province."
Women Also Enthusiastic.
Mrs. Ralph Smith, M. P. P., said that California has demonstrated what it means to any district to have good roads, as the California good roads policy now means millions of dollars to the state every year.
"If it is good business for California, then it is good business for British Columbia," said Mrs. Smith. "This is as much woman's Province as a man's Province, and the women are just as much interested in the development of the Province as the men."
Outlines Road Policy.
Hon. Dr. King outlined the policy of the Government regarding road extensions. As between the Hope-Princeton and the Fraser Valley routes the decision will be based strictly on the advice of expert engineers, without any political influence being admitted. He said both routes would cost about the same, \$1,000,000.
"I think as far as the people of this Province are concerned, they are prepared to give sufficient money to make the road connection between the Coast and the Interior," he continued.
The Minister explained the legislation to be introduced to classify all roads into trunk or primary road and secondary roads, along with a definite policy for the construction of the various roads.
Need \$2,500,000 a Year.
With a man he outlined the Government's policy of road extension through the Interior of the Province. Work is now being carried out to connect Revelstoke, at present isolated, with the road system of the Province.
"British Columbia should have \$2,500,000 each year for the maintenance of roads," he went on. "The Dominion Government is giving \$1,250,000 to be spent during five years. But this will not take you a great way on your roads. It is proposed that the Provincial Government will prepare plans and devise a policy to be submitted to the Dominion Government for approval. Then the Dominion Government will contribute on a basis of 40 per cent. for the 80 per cent. contributed by the Province."
Has Plans For North.
"We do not propose to bring in fore-owners to build our roads. Our road construction will go on as the development of the Province goes on."
"It is the policy of the Government also to take care of the big population opening up the North. We are now connecting Prince George and Quinsig. Then by the Cariboo, once the Hope-Princeton road is built, it will be possible to travel from the Coast

How to Stop a Cough

A constitutional remedy that removes the cause by building up the system, will stop a cough and break up a cold. These elements contained in Vinol—Beef and Cod Liver Peptones, Wild Cherry, Iron and Hypophosphites—soon create an energy that throws off the cold and prevents its recurrence.

Here is Proof that Vinol is a Great Remedy for Coughs and Colds
"I had a severe cold and cough, no appetite and headaches, and was tired all the time. I read about Vinol and decided to try it, and the result was most satisfactory as I was soon as well as ever and my cold and cough had disappeared."—L. Sage, 189 Elgin St., Brantford, Ont.
"For years I suffered with a chronic cough, so I could not sleep nights and continued to lose flesh. My druggist asked me to try Vinol. It cured my cough, I can sleep nights and have gained twelve pounds. Vinol is the best tonic and tissue builder I have ever taken."—W. D. Ren, Lagrange, N.C.
For all run-down, nervous, anemic conditions, weak women, overworked men, feeble people and delicate children, there is no remedy like Vinol.
Your money will be returned if Vinol fails—Leading Druggists

Vinol Creates Strength

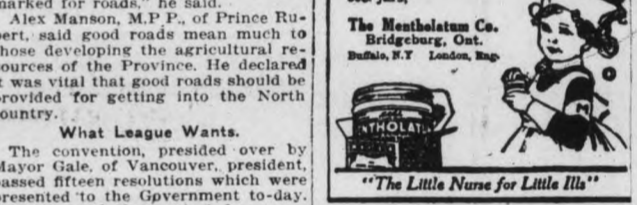

through the whole central part of B. C. That is our objective now.
"I am trying to get the people to look upon their road problems as Provincial and not district. When we construct a piece of road we look upon it as for the development of the whole Province and not for any particular district.
Bridge Work Too Costly.
"It is just a question at present how far we should go. When you find bridge timbers costing \$97 a thousand feet in the Kootenay, you ask yourself how far you should go. We cannot go on with the bridge programme we would like because of the increased cost."
E. W. Anderson, M. P. P., of Kamloops congratulated Hon. Dr. King for doing away with the old road foreman system and putting the roads under competent engineers, thus giving the most progressive system in any Province.
M. A. Macdonald, M. P. P., of Vancouver, urged the completion of the Pacific Highway. He said that revenue should be ear-marked for special purposes to a larger extent than is done now.
Wants Interior Connection.
More energetic development under the Public Works to give better connection between the Interior and the Coast was advocated by J. W. Jones, M. P. P., of Kelowna.
"Motorists have no objection to increased taxation, provided it is ear-marked for roads," he said.
Alex. Manson, M. P. P., of Prince Rupert, said good roads mean much to those developing the agricultural resources of the Province. He declared it was vital that good roads should be provided for getting into the North country.
What League Wants.
The convention, presided over by Mayor C. F. Vancouver, president, passed fifteen resolutions which were presented to the Government to-day.
These resolutions asked for:
1. Changing the rule of the road from left to right to correspond with other parts of Canada and the United States.
2. Information on the decisions of the Government as to which route is to be adopted for the highway from the Coast to the Interior.
3. Construction of the missing links in the provincial highways between Creston and Kananaskis and between Cascade and Rossland.
4. The hard-surfacing of the Pacific Highway clear through to the international boundary line.
5. The choice of route between the Cloverdale and the Smiths-Trail proposals is to be left to the Public Works experts.
6. Extension of the Island Highway pavement from the top of Colwood Hill to Langford Station, about one mile.
7. A highway link from Nelson south to the international boundary.
8. Anti-glare legislation to protect life and limb against selfish motorists who refuse to dim their lights at night and thus force others into serious accidents.
9. Hard-surfacing of the Yale Road from New Westminster to Chilliwack.
10. Paving of the plank section of Kingsway out of Vancouver.
11. Inclusion of the Clarke Road between Port Moody and New Westminster in the general road improvement scheme.
12. Extension of the Island Highway from Campbell River into the

Millionaires -who take in roomers

Is parent-love a menace?

GREAT men almost invariably have had unusual mothers or fathers who played a conspicuous part in shaping their lives.

And yet eminent psychologists tell us that the pampering love of parent for child—unless wisely directed—can do tremendous harm.

Harvey O'Higgins has interviewed one of the greatest nerve-specialists in America on this vital problem.

Nothing more amazing and dramatic has been written about human relationships than "The Love-Image," in the current *Cosmopolitan*.

When a financier's wife pawns her jewels

YOU won't know until the end of the story why she did it.

But when the pretty young wife of a feeble, old millionaire is seen to frequent a pawnbroker's, and then enter a cheap lodging house, being watched by a good looking detective—well, there's enough mystery, love, action and high finance in this unusual story to satisfy anybody.

"Her Secret"—by Will Payne—is the first of a series of the adventures of Ben Bodet, business detective, who—we prophesy—will rank as one of the most interesting sleuths of fiction.

PLAIN, simple country folk down in Texas went to bed one night as poor as the proverbial church mice and awoke to find themselves millionaires!

But they cannot accustom themselves to their new prosperity, and, living far from the maddening crowd, they do the most extraordinary things imaginable with their newly acquired wealth. Old Jake Wells went right out and bought himself \$4.80 worth of bananas, ate them, and then just naturally died.

Mrs. Snodgrass, wife of the village doctor (who doesn't know how rich she is), built a large wing on the old homestead so she could take in more roomers!

Another old lady—whose profits quickly passed the million mark—went to the hardware store and bought "paw" a new ax so he could cut the kindling easily.

And the surprising thing about it all is that *it's true!* The great oil boom that has recently transformed the most desolate section of Texas into a land of untold wealth has produced a new phenomenon in our national life—something unlike anything the world has ever seen before.

Don't fail to read

"Millionaires Made While You Wait"

By FRAZIER HUNT

in the latest *Cosmopolitan*

Are wives harder to get along with than husbands?

BOXER thought so, because, as he told his friend Charny, his wife had called him a "drunken satyr" simply because he tried to light his cigarette at an electric-light bulb.

And Charny agreed with him, because *his* wife had told him that he never kept a promise in his life. And he sometimes did!

Gouverneur Morris, in "The Great Friends," has surpassed himself in this rollicking story of domestic misunderstandings and how they were overcome.

Don't fail to read it in the current *Cosmopolitan*.

They discovered the fountain of youth

"PHONY" DICK and "Overcoat" Bennie had just relieved an oil magnate of \$500. But when they went and lost it on the Kentucky Derby, they simply didn't have the heart to go home to Mrs. "Phony," who kept the cash (and who also kept track of their prowess.)

So they decided to take a little fishing-trip out California way, and that's how they happened to discover the Beauty Fountain.

You who have applauded his "Boston Blackie" stories will delight in this crook story in a lighter vein by Jack Boyle in the current *Cosmopolitan*.

Don't miss these in the same number—

"KINDRED OF THE DUST"—Peter B. Kyne's great story of a rich lumber laird, his only son, and a beautiful girl.

"THE CROWN PRINCE OF PYNE'S FALLS, MASSACHUSETTS"—The story of an aviator who didn't see service until he got back home—by Royal Brown.

"THE FATHER OF WATERS"—One of the greatest stories Rupert Hughes has written.

"THE MAY-FLY"—You will probably recognize more than one girl you have known in this story of a flirt—by Dana Gatlin.

"UNEASY STREET"—A dramatic chapter in Arthur Somers Roche's great novel of love and mystery.

"THE CRIMSON TIDE"—The concluding instalment of Robert W. Chambers' unusual romance of the Bolshevik menace.

"THE RELAPSE OF CAPTAIN HOTSTUFF"—Old Reliable is accessory to a holiday celebration strictly according to Hoyle—by Harris Dickson.

"HER HOME, THE WORLD"—a poem of unusual beauty and sentiment—by Mary Carolyn Davies.

"Nearly everybody worth while reads *Cosmopolitan*"

Life is not habitually seen from any common platform so truly as in the light of literature.
Thoreau

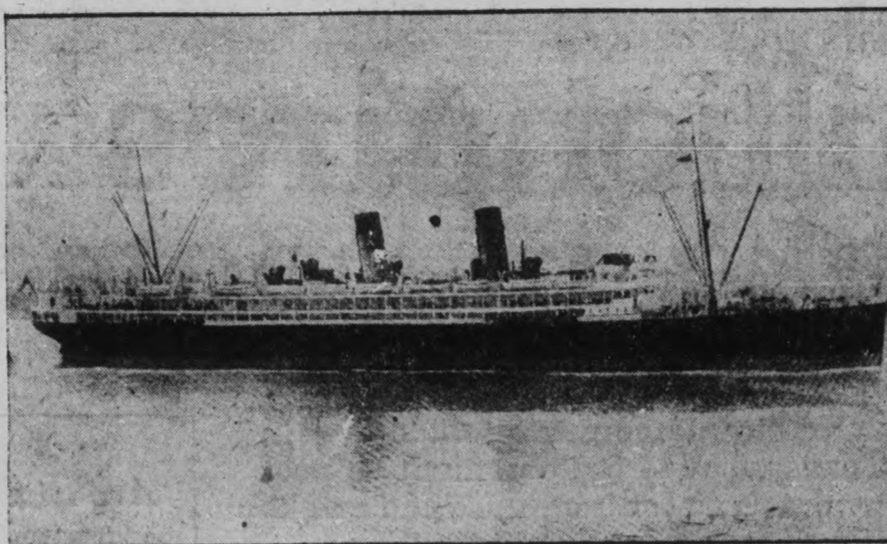

50 Years Ago

A young man who practiced medicine in Pennsylvania became famous and was called in consultation in many towns and cities because of his success in the treatment of disease. He finally made up his mind to place some of his treatments before the entire United States and, moving to Buffalo, he put up what he called his Favorite Prescription, and placed it with the druggists in every state in the Union.

United States than any other medicine of like character. It's the testimony of thousands of women that it has benefited or entirely eradicated such distressing ailments as women are prone to. For over fifty years some of Dr. Pierce's home medicines have been selling over the drug counters, so that more than forty-eight million bottles have been sold during that time.

AT LAST LEAVING SYDNEY FOR THIS COAST

R. M. S. NIAGARA

Three Passengers Died of Influenza; Others Are Ill

Nippon Liner Suwa Maru Quarantined at William Head on Arriving From Yokohama; Two Bodies Buried at Sea; Third Passenger Died This Morning.

With three of her passengers dead and seven others afflicted with influenza, the Nippon Yusen Kaisha liner Suwa Maru, Capt. Shimidzu, is moored at William Head. The vessel will be detained there for three days, provided no further cases are reported.

The Suwa Maru dropped anchor off William Head during the night, completing a very eventful passage from Hongkong and Yokohama. Word was sent ashore of the distressing conditions which existed aboard and Dr. Nelson, quarantine officer, took charge and arranged to have the Suwa docked at the station immediately after the C. P. O. S. liner Empress of Japan finished embarking coolies at noon.

Two Died at Sea. Shortly after leaving Yokohama the first symptoms of the outbreak of the epidemic were discovered. One of the passengers was taken suddenly ill, and after a short struggle against the disease died. The body was buried at sea. The epidemic spread rapidly and shortly another death was reported. The body also was buried during a calm spell.

Just as the Suwa was swinging to an anchorage off the Head this morning a third death occurred. One of the Japanese ladies in the first cabin passed away. Arrangements are being made to bury the body in Seattle.

Details Meagre. Owing to the fact that the Suwa did not berth at the quarantine station until afternoon the details received of the conditions aboard are very meagre. The names of the unfortunate passengers could not be obtained.

While three deaths have occurred seven other passengers are seriously ill. Every effort will be made to forestall an increase in the mortality list.

'Flu Serious in Japan. The first patients contracted the 'flu while in Japan and the others were infected during the passage. In Japan the epidemic is raging fiercely and according to the latest report 300 persons are dying daily in Tokyo. Some difficulty is being experienced in stamping out the disease owing to the lack of sanitary conditions and the crowded conditions of certain sections of the city.

Costly Delay. The delay of the Suwa Maru at William Head will prove very costly to the company. Included in the cargo which the ship has for Seattle is a silk shipment valued at \$11,000,000. The insurance rate on this class of freight is very high and speed is the essential requirement in its delivery.

When the steamship is released she will come up to the outer docks to allow thirty-five first-class passengers and a large number of Orientals in steerage to disembark. The cargo for discharge here amounts to 750 tons.

PROTESILAUS ON WAY IN

Word was received this morning that the Blue Pannel liner Protésilau, sailed from Yokohama on March 1. She will arrive at Victoria on March 13.

VESSELS' MOVEMENTS

Table listing vessel arrivals and departures, including ship names, companies, and destinations.

EMPRESS OF JAPAN OUT

The C. P. O. S. liner Empress of Japan called here this morning on her way from Vancouver to the Orient. A number of passengers embarked. From the outer docks the liner proceeded to William Head, where she embarked over 600 Chinese coolies.

GEORGE LEAVES RUN AND RUPERT RETURNS

G. T. P. Steamers Switching for Annual Overhauls; Overloaded With Passengers

When the Grand Trunk Pacific steamer Prince George, Capt. Donald, reached Prince Rupert this morning she was withdrawn from the coastwise trade in order to undergo her annual overhaul.

The Northern trade is beginning to show signs of picking up and when the Prince George cleared from this port and Vancouver on Monday last she was unable to accommodate in berth all the passengers who traveled with her.

Overhauls at Rupert. The G. T. P. is getting its fleet ready for a very busy summer. While the three-stackers are undergoing their overhauls only a weekly service between here and Prince Rupert is being maintained.

This investment will commend itself for the following reasons:

It is the first opportunity ever presented to this public of acquiring first-class ship property, and in this connection it will be well to remember that Great Britain's commercial supremacy and national wealth is largely attributable to the policy of

BUILDING, OWNING AND OPERATING SHIPS. British Columbia possesses maritime features which are assets of great advantage to this Province.

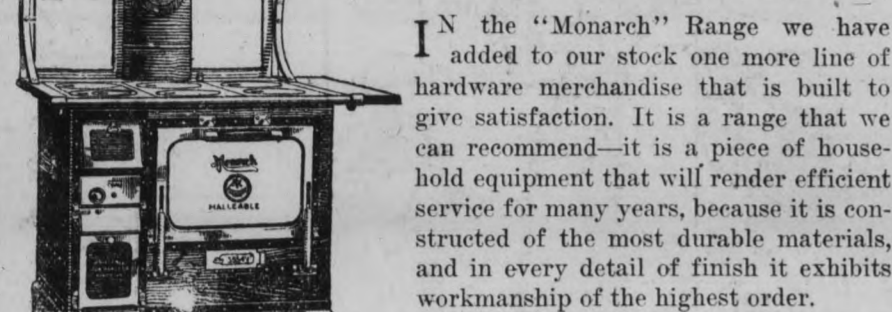

LOCAL OWNERSHIP AND CONTROL OF SHIPPING. In this light the soundness of the scheme will be apparent.

All progressive nations strive for the development of international commercial relations, or in other words, aim to expand their Foreign Trade. As shipping is the great essential to the attainment of this object, the country that owns and controls the ships, holds the key position and derives the greatest benefit.

From this point of view the great possibilities in the form of ship earnings will readily be seen.

Do Not Hesitate—Invest Now

In Future The Famous "Monarch" Range Will Be Sold Only at This Store In Victoria

IN the "Monarch" Range we have added to our stock one more line of hardware merchandise that is built to give satisfaction. It is a range that we can recommend—it is a piece of household equipment that will render efficient service for many years, because it is constructed of the most durable materials, and in every detail of finish it exhibits workmanship of the highest order.

Every Housewife Is Invited To Inspect This Splendid Range

We want every housewife in this community to know about this splendid Range. Women who choose the "Monarch" for their kitchen are profiting by the experience of many thousands of women. There are some very good reasons why every woman who has a MONARCH is a MONARCH enthusiast. In the first place, the MONARCH cooks—quickly, reliably, economically. And it cooks and bakes just as well after many years of hard service. That's because its joints are tight, and they stay tight. The steel plates are riveted to the castings of unbreakable iron, making a firm and solid joint.

MONARCH Ranges are protected against damage from Rust. The Vitreous Enameled Flue linings protect every part of the flue walls. It costs more to build MONARCH Ranges this way, but it makes the MONARCH a more durable range.

HOUSE CONSENTS TO SEND PETITION FOR GEOLOGICAL HELP

Mr. Sloan Deplores Withdrawal of Officials From B. C. Field

DECLARES MINERAL ACTIVITY SUFFERING

Legislative Press Gallery, March 2.

On account of the recent resignations of a large proportion of the staff of the Geological Survey of Canada, and because of the fact that British Columbia has been deprived of the services of four geologists who were engaged in the province last Summer, the Hon. William Sloan, Minister of Mines, recognizing the unfortunate effect on the development of the mineral resources of this province of the combination of circumstances which have moved and the House passed, a resolution in the Legislature this afternoon urging that a petition be submitted to the Dominion Government with a view to the restoration of activities in the geological field here.

Its Origin.

Supporting the provisions of his resolution, Mr. Sloan related to the House a short history of the Geological Survey of Canada, ascribing its origin to the personal enthusiasm of Sir William Logan, who first undertook this important work prior to the year 1847. Reference also was made by the Minister to Dr. T. Sterry Hunt and Sir William Dawson, both of whom had carved their names on the scientific roll of fame for the work accomplished by them.

On the early explorations of the survey staff, said Mr. Sloan, the work of Richardson on the coalfields of Vancouver Island was familiar to all who were interested in mining. And from this point the speaker traced the various surveys carried out in British Columbia and through to the Yukon with which he coupled the name of Lawson after whom the Yukon city was named.

The Early Work.

Perhaps the most striking result of the early work, the Minister proceeded, was the elucidation of the complex relations of the igneous rocks in the great pre-Cambrian formation in the vicinity of the Great Lakes. Mr. Sloan explained to the House that the great "pre-Cambrian shield" of Canada contains the greatest single area of rocks of that era in the world, and besides being of exceptional scientific interest, it contains rich mineral deposits. The names of Cobalt, Porcupine, Sudbury and the iron-copper ores of the Lake Superior district were mentioned, he said, to remind one of the economic importance of that region. When that part of the country was a wilderness, commented the Minister, Logan and his assistants, especially prepared for educational purposes by the Game Conservation Board.

Work on the Island.

The Minister referred to the work being done by Charles Camsell in this Province. Particularly important was that official's discovery with regard to the increased possibilities for prospectors in the Coast Range. Mr. Sloan also spoke of the mining activity and geological survey work on the southern part of Vancouver Island, where R. H. Chapman, secured from the United States Geological Survey, and Dr. C. H. Clapp, of the School of Mines, Butte, had accomplished splendid results.

Deplored Condition.

"In view of the almost certain large increase in prospecting and general mining activity this condition is nothing short of deplorable," he continued. "The present high standard of scientific attainment and the personal integrity of the survey men has long been recognized by all interested in mining in this country, and if the work is cut off the mining industry must suffer irreparably."

Mr. Sloan pointed out that conditions in British Columbia were different to those met with in other Provinces of the Dominion. Here were immense undeveloped mineral resources, wide expanses of unknown country, geologically speaking, and it was a fact that under the terms of Confederation the Federal Government was pledged to carry out a geological survey of the Province.

Too Little Pay.

Reference was made to the work of Dr. R. Mackay and his special training in physiography. This official had resigned when drawing a salary of \$2,580 per year, with a promise of a yearly increase of \$180.

He was now earning \$5,000 and all expenses elsewhere. Other geological survey experts were mentioned as having left the service because of insufficient remuneration. The Minister declared that men trained in this Province were in big demand, and that a high standard had been set in British Columbia.

Benefits.

Mr. Sloan then listed the benefits to be derived by British Columbia in having the services of the active corps of geologists at the disposal of the mineral industry of the Province. These were:

(a) It secures the services of the most highly trained scientists to work on local problems.

(b) These unbiased investigators can approach their problems in an entirely impartial manner.

(c) They are trained and expected to solve the larger geologic problems, for which no individual mining company can afford to maintain experts.

(d) The men are associated at Ottawa with others who work all over Canada, and who are thoroughly conversant with the latest geological information. Thus, by criticism and suggestion, British Columbia problems receive the benefit of this world-wide experience.

Free to All.

(e) The results of the work of the surveys are free to all, to the prospector as well as to the mine manager and capitalist. Verbal information is given to any owner or investor at once. Written information in advance of reports can be obtained on short notice on application to Ottawa.

(f) Geological maps form an accurate and reliable guide in prospecting. They act positively in directing the attention to most promising districts and in scanning the most promising areas by outlining areas likely to be barren.

(g) The present-day problems in mining are often geological in their nature. Such questions as haulage, transportation, ventilation, can be easily solved by modern methods, and there are plenty of engineers competent to do this.

A Mining Country.

"British Columbia is essentially a mining country," continued Mr. Sloan, "and our future is dependent upon that industry. The carrying on of the work of the Geological Survey is absolutely necessary, and if no greater progress is made than at present it will be centuries before the work is completed. In conclusion I trust the House will unanimously support the resolution. This endorsement is sought in the hope that Ottawa will give immediate consideration to substantial financial increases to members of the Geological Survey, and also that they may more fully engage in the important scientific work and take such steps as are necessary to assure a more generous compliance with the terms of the contract than up to the present has been the experience of British Columbia."

SHOT DEER WITH RIFLE ONLY, SAYS B. JACKSON, K.C.

Would So Stipulate in Amendments to the Game Act

Legislative Press Gallery, March 2.

When Mr. B. Jackson, K.C., Liberal member for the Islands, made his contribution to the debate on the motion for the second reading of the bill to amend the Game Act in the East of the House, the major portion of his remarks were confined to that section of the measure which prohibits the hunting of deer with dogs.

In Mr. Jackson's opinion the most effective way to deal with this particular phase of game preservation would be to include a provision in the bill absolutely prohibiting the following and killing of deer with the shotgun. This part of the Islands member's address was prompted by the remarks of the Leader of the Opposition during the course of his criticism of the bill, in which Mr. Bowser had created a hypothetical case of a hunter out for feathered prey accompanied by dog and shotgun. He had ridiculed the provision in the bill directed to prevent that by the use of the shotgun when it might chance to cross his path as a result of having been "nosed" out by his canine companion.

Would Jail 'Em.

If the member for the Islands could have his way he would jail for any "huntsman" who would forget all his sporting instincts and shoot at a deer with buckshot. And to illustrate his point he recited a note into a scientific and illustrated recital of the comparative effect of buckshot and rifleshots by demonstrating the purpose of making this people distances. From statistics in his possession he showed that very few deer were killed or even brought down by the use of the shotgun on account of the nature of the pellets spread; but there were numerous instances in which the small pellets had become embedded in the body of the animal only to end its career with a lingering death through blood-poison.

Peasants.

The member for the Islands was heartily in accord with the suggestion made by the soldier member for Cowichan that farmers not interested in sport, whose crops were damaged by the depredations of the peasant, should get some measure of compensation for the loss involved. In reference to quail Mr. Jackson was of the opinion that those who were interested in the preservation of the vitality of this most elusive of field targets should be allowed to treat them, on the understanding that those so permitted were definitely concerned in the changing and improvement of the stock.

Game Wardens.

How Signs Of Old Age Creep Into Your System When The Iron In Your Blood Runs Low

For Want of Iron, You May Be Old At Thirty—Nervous, Irritable and All Run-Down—While at Fifty or Sixty, With Plenty of Iron in Your Blood, You May Be Young in Feeling and Brimming Over With Vim and Energy

IRON IS THE RED BLOOD FOOD

That Helps Strengthen the Nerves, Restores Wasted Tissue and Aids in Giving Renewed Force and Power to the Body. Physicians Explain Why Administration of Simple Nuxated Iron Often Increases the Strength and Endurance of Delicate, Run-down People in Two Weeks' Time.

Old age has already sunk its talons into thousands of men and women who ought still to be enjoying the springtime and summer of life simply because they have allowed weary, over-work, nervous strain, dissipation and occupational poisons to sap the iron from their blood and thereby destroy its power to change food into living tissue, muscle and brain. You will find plenty of people at 40 who are broken in health and steadily going downward to physical and mental decay while others at 50 are strong, active, alert and seemingly growing younger every year.

YOU ARE AGEING
If you are wearing down by the activities of your daily life

YOU ARE AGEING
If you have lost the spring of your step and your movements are cumbersome

YOU ARE AGEING
If your skin is shrinking and your face looks wrinkled, careworn and old

YOU ARE AGEING
If the enthusiasm for tackling your daily problems has waned

readers in all cases to get a physician's prescription for organic iron—Nuxated Iron—before you don't want to go to this trouble then purchase Nuxated Iron in its original packages and see that this particular name (Nuxated Iron) appears on the package. If you have taken preparations such as Nux and Iron and other similar iron products and failed to get results, remember that such products are an entirely different thing from Nuxated Iron.

Dr. George H. Baker, formerly Physician and Surgeon, Monmouth Memorial Hospital of New Jersey, says: "From a careful examination of the formula and my own tests of Nuxated Iron, I feel convinced that it is a preparation which any physician can take himself or prescribe for his patients with the utmost confidence of obtaining highly beneficial and satisfactory results."

Nevertheless, Nuxated Iron which has been used by Dr. Sullivan and other physicians with such sterling results, is not a medicine. Unlike the older iron pills, it does not irritate the stomach, does not cause constipation, and does not produce any of the undesirable effects of the ordinary iron pills. It is a pure, natural, and entirely satisfactory source of iron for the human system. I strongly advise you to get your iron from Nuxated Iron.

HUGH STEWART OFFERS POINTS IN GAME ACT

Will Offer an Amendment in Respect of Tax on Trapping

Legislative Press Gallery, March 2.

Continuing the debate on the motion for the second reading of the bill to amend the Game Act in the Legislature this afternoon, Hugh Stewart, Liberal member for Comox, informed the House that he did not intend to discuss the merits of the bill at that time, but that as he expected to be absent when the measure reached the committee stage he desired to make known that he would offer an amendment.

The member for Comox was in complete agreement with the principle of the bill and was of the opinion that by subjecting trappers in some cases to three taxes an injustice would be worked. It is, therefore, he stated, that Mr. Stewart's amendment will have to do with this phase of the bill, since representations have been made to him from his constituency that the House that what in Victoria would not suit another part of the Island.

Caustically referring to the "heel of the Island" as the home of the golfing enthusiast, he wished to remind the members of the House that what was regarded as sport in the environs of this city took on the importance of food in the constituency represented by him. He hoped, therefore, that in future the chairman of the Game Conservation Board, if he had been guilty in this case, would not allow his judgment in game matters of Vancouver Island to be dictated by a section of the Island only. Albern, said he, had just as much right to have its voice heard as the capital city.

Mr. Speaker Keen then put the motion for the second reading of the bill, which passed without further debate, the Attorney-General asking that the measure be committed at the next sitting of the House.

This is the season when the rich write those wonderful "wish you were here" cards from the sunny south.

THIN, NERVOUS PEOPLE NEED BITRO-PHOSPHATE

What It Is and How It Increases Weight, Strength and Nerve Force in Two Weeks' Time in Many Instances

SHOULD BE PRESCRIBED BY EVERY DOCTOR AND USED IN EVERY HOSPITAL

Says Editor of "Physicians' Who's Who."

Take plain bitro-phosphate the advice of physicians to thin, delicate, nervous people who lack vim, energy and nerve force, and there seems to be ample proof of the efficacy of this preparation to warrant the recommendation. Moreover, if we judge from the countless preparations and treatments which are continually being advertised for the purpose of making thin people fleshy, developing arms, neck and bust, and replacing ugly hollows and angles by the soft curves of health and beauty, there are evidently thousands of men and women who keenly feel their excessive thinness.

Weakness and nervousness are usually due to starved nerves. Our bodies need more phosphate than is contained in modern foods. Physicians claim there is nothing that will supply this deficiency so well as the organic phosphate known among druggists as bitro-phosphate, which is inexpensive and is sold by most all druggists under a guarantee of satisfaction or money back. By feeding the nerves directly and by supplying the body cells with the necessary phosphoric food elements, bitro-phosphate quickly produces a welcome transformation in the appearance; the increase in weight frequently being astonishing.

Clinical tests made in St. Catherine's Hospital, N. Y. C. showed that two patients gained in weight 23 and 27 pounds, respectively, through the administration of this organic phosphate; both patients claim they have not felt as strong and well for the past twelve years.

This increase in weight also carries with it a general improvement in the health. Nervousness, sleeplessness and lack of energy, which nearly always accompany excessive thinness, soon disappear, dull eyes become bright and the cheeks glow with the bloom of perfect health.

Physicians and hospitals everywhere are now recognizing its merits by its use in ever increasing quantities. Frederick Kelle, M. D., editor of New York Physicians' "Who's Who," says: "Bitro-Phosphate should be prescribed by every doctor and used in every hospital to increase strength and nerve force and to enrich the blood."

Joseph D. Harrigan, Former Visiting Specialist to North Eastern Dispensary, says: "Let those who are weak, thin, nervous, anemic, or run-down, take a natural, unadulterated substance such as bitro-phosphate and you will soon see some astonishing results in the increase of nerve energy, strength of body and mind and power of endurance."

Bitro-Phosphate is made entirely of the organic phosphate compound recommended in the National Standard Diet as being an excellent tonic and nerve and a preparation which has recently acquired considerable reputation in the treatment of neurasthenia. The standard of excellence, strength and purity of its substance beyond question, for every Bitro-Phosphate test is manufactured in strict accordance with the U. S. Pharmacopoeia requirements. Bitro-Phosphate is therefore not confused with any of the secret, nostrums, so-called tonics or widely advertised "cure-alls."

CAUTION!—Although Bitro-Phosphate is unsurpassed for relieving nervousness, sleeplessness and general weakness, owing to its remarkable flesh growing properties it should not be used by anyone who does not desire to put on flesh.

HOUSE ADJOURNS AND MEMBERS "DISSIPATE"

Game Conservation Board Host at Picture Show in Royal Victoria

Legislative Press Gallery, March 2.

Rising on a question of privilege before the Legislature, commenced its ordinary business this afternoon, the Hon. J. W. de B. Farris, Attorney-General and Minister of Labor, extended an invitation to witness a special showing at the Royal Victoria Theatre of game pictures and other scenes of British Columbia wild life especially prepared for educational purposes by the Game Conservation Board.

Mr. Farris explained that his object in asking the members to be present at this display was to provide them with sufficient material for mental reflection upon the importance of British Columbia's game in order that at a later stage of the session legislation which he had contemplated introducing might be reviewed, analyzed and criticized in the light of suggestions which probably might be evoked by the screened representations of the "industry."

Applause greeted the Attorney-General's announcement, and when the House adjourned at 5 o'clock nearly every member wended his way to the popular local amusement house.

How Fat Actress Was Made Slim

Many stage people now depend entirely upon Marmola Prescription Tablets for reducing and controlling fat. One clever actress tells that she reduced two to four pounds a week by using this new form of the famous Marmola Prescription and now, by taking Marmola Tablets several times a year, keeps her weight just right. All druggists sell Marmola Prescription Tablets at \$1 for a large case. Or you can get them by sending price direct to the Marmola Co., 864 Woodward Ave., Detroit, Mich. If you have not tried them do so. They are harmless and effective.

Leeming Bros., Ltd.

\$2,075 IF YOU HAVE this amount of CASH and are looking for a DANDY LITTLE HOME ON THE WATERFRONT you should LET US SHOW YOU NO. 1627 HOLLOWOOD CRESCENT, FOWL BAY.

Found at Last

Yes, we know how utterly tired and sick you are of looking at houses and trying to find the home you want, and yet all you asked for has seemed so reasonable. You have wanted just a nice, cosy and attractive looking bungalow of about 6 rooms, in a good locality, and preferably in Oak Bay, south of the Avenue, with an entrance hall, a nice, bright living room with an open fireplace, a dining room with the usual built-in features, a bathroom, two bedrooms and a kitchen of course, a healthy kitchen to work in, with plenty of sun, and about 3 bedrooms, cupboards, a full cement basement with furnace, etc. you must have the wash tubs. The place must be fairly handy to street cars, and, as summer is coming, not too far from the sea. No, a garage is not essential.

Pemberton & Son

HILLSIDE DISTRICT—Exceptionally well built bungalow of 8 rooms, modern in every respect, built-in buffet, bookcase, beam ceiling and paneled walls; full sized lot; no real improvement taxes. For quick sale, price \$2,500.

FIRM MARKET IN CHICAGO GRAINS

(By Burdick Bros. & Brett, Ltd.) Chicago, March 3.—A traders' market prevailed in corn and oats futures to-day with the advantage still leaning toward the constructive side of prices. Corn established new high prices, but reacted quickly when profit taking appeared.

TO-DAY'S TRADING IN WINNIPEG MARKET

Winnipeg, March 2.—There was practically no change in the cash markets today. The strength of May futures has about killed the cash trade in oats and flour.

TO TAKE OFFICE IN SEATTLE MARCH 15

Caldwell, the Newly-elected Mayor, Will Be Inaugurated Then

Seattle, March 3.—Major H. Caldwell, war veteran, will be inaugurated Mayor of Seattle March 15...

Approximately eighty-five per cent. of the registered voters cast their ballots yesterday...

Duncan was one of four candidates of the Triple Alliance, an alleged radical organization, who lost yesterday. The other three were Councilman W. D. Lane...

HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Miss Eva P. Yateman, Krugersdorf, Ont., writes: "I feel that I must write to you the greatest benefit I have received from Milburn's Heart and Nerve Pills..."

WOMEN TO VOTE IN QUEBEC PROVINCE

Montreal, March 3.—For the first time in the history of Quebec province, women will exercise the franchise at the coming two Federal by-elections on April 19 and 20...

SOLDIER'S WIDOW RECEIVES PENSION

Toronto, March 3.—After having waited about four years for a pension, the widow of a soldier who served with the Second Canadian Pioneer, reported missing at first, and then reported killed, will receive from the Pensions Board about \$1,700 dated back to March 1916...

COLDS OPEN THE DOOR TO MORE SERIOUS AILMENTS

Don't wait until that cold of yours develops into La Grippe, or influenza, get a box of Dominion C. B. Q. tablets now, one or two doses will break up the worst cold. C. B. Q. stands for Cascara Bromide Quinine properly combined in the right proportion and compressed into small chocolate coated tablets that are easily swallowed.

FOR COLD, COLDS, LA GRIPPE, NEURALGIA, HEADACHE, COUGHS, TAKE Dominion C. B. Q. Tablets in the red box, 25 cents.

NOW ASK PREMIER TO GIVE UP \$500

Claim Made Soldiers Arrested For Trespassing on Ontario Premier's Farm

Toronto, March 3.—While Premier Drury was a candidate in Halton County for a seat in the Legislature and was being opposed by E. J. Stephenson, a returned soldier of this city, a report was circulated that Mr. Drury had had a soldier arrested on his farm at Crown Hill for trespassing with an affidavit made by Kenneth Cox, of Milton, Halton County, a former soldier...

Sergeant-Major Joseph McNamara, M. P. for Riverdale, has come forward with an affidavit made by Kenneth Cox, of Milton, Halton County, a former soldier, to the effect that because of a complaint of trespass preferred by Mr. Drury against him and several companions in February, 1916, while with the 7th Battalion at Barrie, Cox and his companions were placed under arrest and confined to the guardhouse for half an hour.

Sergeant-Major McNamara asks the Premier to give the \$500 to the Soldiers' Orphans' Home.

NO REFERENDUM ON LIQUOR IN B. C.

Vancouver, March 3.—That no referendum in British Columbia under the Dominion Prohibition Act be asked for was a recommendation made in the report of the People's Prohibition Association committee at the opening of the annual convention of the Association here this afternoon.

ANCIENT WINDMILL IN PARIS IS TO BE TORN DOWN SHORTLY

Paris, March 3.—The artist colony here is in a state of indignation because the Moulin Redet is to be removed from the Montmartre. The hillside and top of Montmartre were at one time covered with windmills. The number dwindled to two, the Moulin Redet and the Moulin de Galette, and for generations artists have visited Montmartre for the purpose of sketching these century-old buildings. The Redet is to be torn down shortly to make room for the construction of new houses.

G. T. P. OFFICIALS AT PRINCE RUPERT

Prince Rupert, March 3.—A. E. Rosewater, W. E. Duperon, James Gorman, W. C. Riddell, L. V. Bruce and H. F. Tilley, Grand Trunk Pacific officials, have arrived here from Edmonton and will be in conference tomorrow to arrange the schedule.

CROSS-BENCHERS HAVE ORGANIZED

Ottawa, March 3.—(Canadian Press)—At an organization meeting of the cross-benchers to-day Levi Thomson, Qu'Appelle, was chosen Whip and will be assisted by two others, probably Wilfrid Kennedy, Stormont-Glenagarry, and John F. Reid, Mackenzie.

ANTI-INFLUENZA SERUM IS USED

Montreal, March 3.—A new anti-influenza serum is now being used by Colonel Bridges, A. D. M. S., and the medical officers of Military District No. 4 as a preventive, not only of influenza itself, but chiefly of the pneumonia diseases and lung abscess which have proved more fatal than influenza. This is a serum known as the polyvalent serum and it is administered subcutaneously, just as was the typhoid serum used with the overseas troops.

DEBATE GOES LINKS PLAY BEFORE HOUSE COMMITTEE TO-DAY

The proposed establishment of a municipal Golf Links by the city was debated at length before the Private Bills Committee of the Legislature this morning when considering the city's private bill, asking for power to pay one-third of the cost involved each year for three successive years out of general revenue. The Committee was in entire agreement with the golf links plan, but some members objected as a matter of principle to allowing the City Council to proceed with a project which had been turned down by the ratepayers at the last election. Decision on the matter will be announced by the Committee later.

TO MEET GOVERNMENT ON SCHOOL QUESTION TO-MORROW MORNING

The School Boards of Victoria, Saanich, Oak Bay and Esquimalt will meet the Executive Council to-morrow morning at 11 o'clock to request that the Provincial Government increase its contribution toward the upkeep of schools.

URGES CLAIMS OF VICTORIAN ORDER

J. W. Weart Introduces Deputation From Vancouver; Splendid Work Reviewed

Explaining to the Premier and members of the Executive Council this morning the magnificent work accomplished by the Victorian Order of Nurses, J. W. Weart, Liberal member for South Vancouver, urged upon the Government the advisability of extending financial aid to the organization in order that its activities might be brought into closer harmony and more effective cooperation with the aims of the Provincial Board of Health.

TOURIST TRAFFIC

"We haven't got the climate for a tourist trade," protested Mr. Anderson. This year has been an exception in the number of tourists who come here. "Well, if fifty tourists came here for the winter they would spend on an average \$500 each," observed Mr. Jackson. That is \$25,000—\$5,000 more than the golf links would cost. All the links would have to do to pay for itself would be to attract fifty visitors.

BRIEF LOCALS

Seed For Vacant Lots.—Seed potatoes and vegetable seed to be used by increased number of people who can afford such pleasure will use the links," he declared. "As it is the taxes in the city are so high that many people are losing their property. Look at the million dollars worth of property taken over again this year. People are literally robbed by the taxes. I admit that times are bad, and it is hard for us all to pay taxes. The links will give me a little more of life out of me to pay mine. But if I can put up an extra dollar—and it won't amount to more than that distributed about the city—to give my working men a golf links where they can get good clean outdoor sport, I will cheerfully find that dollar."

HEARTY LOCALS

Mr. Anderson replied that he had not, and that he had become so accustomed to work since childhood that it had become a pleasure to do only people who can afford such pleasure will use the links," he declared. "As it is the taxes in the city are so high that many people are losing their property. Look at the million dollars worth of property taken over again this year. People are literally robbed by the taxes. I admit that times are bad, and it is hard for us all to pay taxes. The links will give me a little more of life out of me to pay mine.
